Product short description:

The Fascetta Metallo Bosnia is a heavy-duty metal clamp designed for secure, long-lasting fixings. Ideal for industrial, professional and domestic use.

- **Material:** High-quality steel that provides strength and durability.
- **Resistance:** Excellent resistance to corrosion and weather for reliable performance in varied conditions.
- **Use:** Versatile design suitable for industrial, workshop and home applications.
- **Installation:** Easy to install; ensures a firm, stable grip to keep components in place.

Product description:

Product overview

The **Fascetta Metallo Bosnia** is a bronzed metal ribbon bar designed for veterans, collectors and military surplus buyers who want to mark service in the IFOR and SFOR missions in Bosnia and Herzegovina. It fits on the ribbon of a commemorative cross to visually identify participation in those peacekeeping operations.

Definition: the **Fascetta Metallo Bronzato Bosnia** is a 37 mm bronzed metal ribbon bar engraved with "BOSNIA" and decorated with a laurel wreath, intended for attachment to a commemorative cross ribbon.

Main features

Simple, durable design focused on clear identification and long-term wearability.

- **Laurel wreath**: Symbol of honor and peace surrounding the central cartiglio.
- **Cartiglio marked "BOSNIA"**: Clearly identifies the operational context of the service.
- **Bronzed metal finish**: Refined appearance with durable metal construction.
- **Standard size 37 mm**: Matches the ribbon width of commemorative cross decorations.
- **Designed for display**: Intended to be mounted on a medal or commemorative cross ribbon.

How to use / When it’s useful

Quick answer: mount the bar directly on the ribbon of your commemorative cross in the central position so the "BOSNIA" cartiglio is visible. In most cases, this 37 mm bar will fit standard commemorative cross ribbons used for peacekeeping mission decorations.

Use the bar to identify IFOR and SFOR service on a display, in veteran collections, or on authorized dress when regulations permit. If you plan to wear it on a uniform, check current dress rules for your service or organization before wearing.

Care and notes

Light maintenance will keep the finish presentable; handle and store the bar with basic care.

- Keep dry and store in a soft pouch to avoid scratches.
- Clean gently with a soft, dry cloth; avoid harsh chemicals that could alter the bronzed finish.
- Only available in the 37 mm size—verify ribbon width before purchase.
- Check local uniform or ceremonial rules before wearing on duty uniforms or police/tactical gear.

FAQ

Q: What material is the Fascetta Metallo Bosnia made from?

A: The bar is made from bronzed metal, offering a durable finish and a refined appearance suitable for display or ceremonial use.

Q: What size is the bar?

A: The bar is available only in the standard 37 mm size, made to fit commemorative cross ribbons of the same width.

Q: Which missions does this bar recognize?

A: It is intended to identify service in the IFOR (Implementation Force) and SFOR (Stabilization Force) missions in Bosnia and Herzegovina.

Q: Is this an official government-issued medal?

A: The bar is a distinctive emblem that denotes IFOR/SFOR service. If you need confirmation of official status for formal wear, consult your issuing authority or dress regulations.

Q: How do I attach the bar to a ribbon or medal?

A: The fascetta is designed to be mounted on the ribbon of a commemorative cross; align it centrally so the "BOSNIA" inscription is visible. Fit depends on the ribbon's standard 37 mm width.

Q: How can I order or reserve this item?

A: The product is offered through the vendor's online store. Check availability and ordering options on the seller's site or contact customer service for pre-order and stock information.

Tip: Choose the 37 mm size if your commemorative cross ribbon is standard width; consider browsing related military surplus and display accessories to complete a medal set or veteran display.
