How to use / When it’s useful

Quick answer: mount the ribbon on a standard 37 mm ribbon bar for uniform wear, or order loose ribbon for repairs, display mounts, or custom uses in collections and tactical/military surplus displays.

In most cases, choose the mount type (clamp or screw) that matches your uniform regulations or display hardware and decide between the regular or Elite domed finish for appearance. For multi-place ribbon bars, order the number of positions you need and indicate the preferred attachment style.
