How to use / When it’s useful

Use this nastrino on service uniforms where ribbon bars are permitted, or mount it on a ribbon holder for multiple ribbons. Quick answer: mount it in the appropriate ribbon position on the uniform, matching other insignia in size and alignment.

It is useful for formal duty, training events, and official appearances where identification of instructor qualification is needed. In most cases, authorized CRI personnel who have earned the qualification should wear this ribbon in place of the equivalent specialty badge.

Care and notes

Keep the ribbon clean and store mounted ribbons flat to preserve shape; choose the mounting variant that best matches your uniform and attachment preference.

- Store in a dry place away from direct sunlight to prevent fading.
- Gently spot-clean with a soft cloth; avoid harsh chemicals.
- Choose the Elite domed finish if you prefer a slightly raised look; otherwise select the flat standard.
- Note: this ribbon is intended for those officially qualified by the CRI.
