Product short description:

Porta Nastrini a 5 posti is a compact 5-position ribbon holder for DIYers, crafters and workshop users who want tidy, accessible storage. It keeps ribbons and tapes organized and within easy reach.

- **Material:** Made from high-quality materials for reliable use.
- **Capacity:** Five spacious compartments to hold ribbons, tapes or small rolls.
- **Use:** Ideal for desks, craft tables and small workshops.
- **Design:** Compact form that fits into any workspace and keeps supplies orderly.

Product description:

Product overview

The Metal 5-Place Ribbon Bar is a compact ribbon holder designed for military, police and duty uniforms to display up to five ribbons in an ordered, regulation-compliant layout. Definition: a ribbon bar holds and aligns service ribbons and decorations for a uniformed appearance.

Built from durable metal, this ribbon bar suits tactical, military surplus and police gear needs and is available with different rear attachment options to match your uniform style and security preference.

Main features

Practical design that follows common ministerial placement rules and fits standard ribbon sizes.

- **Holds five ribbons** arranged on two rows (two centered on top row, three on the lower row).
- **Metal construction** for long-lasting use and a professional look on uniforms.
- **Attachment options:** clip (morsetti) or screw-mounted, selectable from the product menu.
- **Compatible sizes:** fits 37 mm and 20 mm ribbon formats with pre-drilled holes for easy fitting.
- **Designed for regulation alignment:** lower row arranged left-to-right following prescribed succession.

How to use / When it’s useful

Quick assembly: choose clip attachment for fast on/off use or screws for a more secure, permanent fit. Follow the prescribed arrangement: two principal ribbons centered on the top row, the remaining three on the lower row left to right.

Quick answer: use the clip if you need to remove the bar frequently; choose screws for field or tactical duty where a secure fit is required. In most cases, confirm ribbon widths (37 mm or 20 mm) before purchase and select the attachment option that matches your uniform and assignment.

Care and notes

Minimal care is required; keep the metal clean and check fastenings periodically. Follow these notes before and after fitting:

- Check ribbon width (37 mm or 20 mm) to ensure proper fit.
- Verify attachment type (clip or screws) matches your uniform material and regulations.
- Confirm ribbon order with official or ministerial placement rules before mounting.
- Wipe metal parts with a soft cloth to remove dirt or moisture; tighten screws if used.

FAQ

Q: Is the ribbon bar compatible with all ribbon types?

A: It is compatible with ribbons in the 37 mm and 20 mm formats. Verify your ribbon widths before purchase to ensure a correct fit.

Q: Which attachment options are available?

A: Two rear attachment options are offered: clip (morsetti) for quick fitting and screw-mounted for a firmer, more permanent installation.

Q: Is the metal durable?

A: The holder is made from quality metal for durability and a professional finish. Regularly check fittings and clean as needed to maintain appearance.

Q: How are the ribbons arranged on the bar?

A: The design places two principal ribbons centered on the top row and three ribbons on the lower row from left to right, following common ministerial placement rules.

Q: Can I change the attachment after purchase?

A: Attachment options must be selected at purchase. If you need a different type afterwards, contact customer service to check available replacement or exchange options.

Q: Is this product suitable for tactical or police use?

A: Yes. The metal construction and screw option provide a secure fit suitable for tactical, military and police duty uniforms; choose the attachment that fits your operational needs.

Tip: Select the correct ribbon size and attachment type from the product menu before adding to cart, and browse related tactical and military surplus accessories to complete your uniform setup.
