**Product short description:**

Neutral Olive Green Patch with Velcro is a versatile accessory for personalizing backpacks, jackets and tactical gear. Made from durable material with a Velcro backing, it attaches quickly and securely and blends with a range of kit styles.

- **Material:** Durable construction for everyday field use.
- **Use:** Attaches to backpacks, jackets, tactical vests and pouches for identification or personalization.
- **Color:** Olive green that integrates with common camouflage and civilian styles.
- **Attachment:** Velcro backing for fast, secure mounting and easy removal.

**Product description:**

## Product overview

The Neutral Olive Green Patch with Rear Velcro is a simple, practical accessory for military, tactical, and police uniforms that use loop (Velcro) panels. It is designed to cover unused, frayed, or exposed hook panels and give a tidy, uniform appearance.

Definition: a neutral cover patch measuring 12 cm x 3 cm that attaches by rear Velcro to standard loop panels. Suitable for military surplus, duty, and tactical use.

**Main features**

Durable and low-profile, this olive green patch blends with vegetated camouflage and fits standard military dimensions.

- **Size:** 12 cm width x 3 cm height, made to standard uniform dimensions.
- **Rear Velcro attachment:** Simple hook-and-loop fastening for quick fit and removal.
- **Protects Velcro:** Reduces wear and prevents dirt and debris buildup on the loop panel.
- **Olive green fabric:** Matches vegetated camouflage and military surplus gear.
- **Embroidered black border:** Reinforced edge for added durability and a neat finish.
- **Versatile:** Works on jackets, shirts, and other garments with compatible loop panels.

**How to use / When it’s useful**

Quick answer: Clean the loop surface, align the patch, then press firmly to secure. To remove, peel the patch off gently from one edge.

In most cases, this patch is useful in the field, during training, or at formal events where a clean uniform look is needed. Use it whenever an exposed or worn Velcro panel would look untidy or collect dirt.

**Care and notes**

Simple care extends the patch life and keeps the Velcro working reliably.

- **Cleaning:** Wipe with a damp cloth and mild water; avoid soaking.
- **No harsh chemicals:** Do not use strong solvents or bleach that can damage fabric or hook-and-loop.
- **Drying:** Air dry in a well-ventilated area away from direct heat sources.
- **Before use:** Remove debris from the loop panel to ensure full adhesion and avoid accelerated wear.

## FAQ

**Q:** Is this patch compatible with all camouflage jackets?

**A:** It fits garments that have a standard loop (Velcro) panel. Check your jacket’s loop size; if it is standard, the patch will attach securely.

**Q:** Can I personalize this patch with a name or logo?

**A:** This model is a neutral cover and is not intended for personalization. A separate embroidered name patch is needed for custom identification.

**Q:** What are the exact dimensions?

**A:** The patch measures 12 cm wide x 3 cm high, matching common military sizing for name/ID panels.

**Q:** How should I clean the patch without damaging it?

**A:** Use a damp cloth and mild water. Avoid aggressive detergents or solvents and let it air dry away from direct heat.

**Q:** How long does the rear Velcro last under normal use?

**A:** The Velcro is designed for regular use and daily wear, but longevity depends on exposure to dirt and repeated attachment cycles. Regular cleaning of the loop panel helps maintain performance.

**Q:** Can I order multiple patches in a single purchase?

**A:** Yes. You can add as many units as you need to your order and keep extras for spares or different uniforms.

**Tip:** Choose the correct patch size and check your garment’s loop panel before ordering. Consider browsing related tactical and military surplus accessories to keep your uniform complete and ready for duty.
