Product short description:

The Aluminium Polizia Locale whistle is a compact, professional signalling tool for local police (Polizia Locale), security personnel and sports coaches.

- **Material:** Sturdy aluminium construction for reliable everyday use.
- **Sound:** Produces a strong, clear tone to attract immediate attention.
- **Design:** Lightweight and compact for easy carry on a lanyard or in a pocket.
- **Finish:** Polished surface for a professional appearance.
- **Use:** Ideal for Polizia Locale, security staff and coaches needing a dependable acoustic signal.

Product description:

Product overview

This Aluminium Police Whistle is a compact signaling tool designed for Polizia Locale and other duty users. It is also suitable for tactical, military surplus, outdoor and emergency use.

Definition: A small aluminium or brass duty whistle that produces a loud, clear signal for crowd

control, calls for help, or officer identification.

Main features

Robust construction and clear acoustic performance make this whistle a reliable choice for law enforcement and outdoor use.

- **Material:** Body made of aluminium or brass for long-lasting use.
- **Two sizes available:** Large — length 4.5 cm, width 1.6 cm; Small — length 3.5 cm, width 1.2 cm.
- **Powerful sound:** Sharp, penetrating tone with a minimum volume of 110 decibels.
- **Simple operation:** Place the tab between the lips and blow to produce an immediate signal.
- **Compliant:** Manufactured to meet Italian regulations for use by law enforcement.
- **Durable:** Designed to resist normal wear and outdoor conditions.

How to use / When it’s useful

Quick answer: Place the metal or plastic tab between your lips and blow firmly to create a loud, high-pitched alert. The airflow creates a vortex that generates the audible tone.

In most cases, this whistle is used for officer presence signaling, giving commands during operations, calling for backup, or attracting attention in outdoor and emergency situations. It is suitable for police duty, tactical teams, and military or civilian outdoor activities.

Care and notes

Simple care keeps the whistle reliable and extends its service life.

- Clean regularly with a damp cloth to remove dirt and saliva.
- Avoid scratching or denting the body to preserve sound quality.
- Do not expose to extreme temperatures for long periods.
- Store dry when not in use to prevent corrosion.

FAQ

Q: What sizes does the whistle come in?

A: The whistle is available in two sizes: Large (length 4.5 cm, width 1.6 cm) and Small (length 3.5 cm, width 1.2 cm). Choose the size from the product menu.

Q: What materials are used in construction?

A: The body is made of aluminium or brass and the blowing tab can be metal or plastic. These

materials are chosen for durability and consistent sound.

Q: Is the whistle compliant with regulations?

A: Yes, the whistle is manufactured to comply with Italian regulations for use by law enforcement and meets the stated acoustic requirements.

Q: How loud is the whistle and how far can it be heard?

A: The whistle produces at least 110 decibels with a sharp, penetrating tone. Actual audible range depends on weather and surroundings but is intended for long-distance signaling.

Q: How do I use the whistle correctly?

A: Place the tab between your lips and blow firmly. A single strong blast produces a clear signal; practice for consistent tone and volume.

Q: What maintenance is required?

A: Wipe with a damp cloth regularly, avoid damaging the body, and keep it away from prolonged exposure to extreme heat or cold. Proper care preserves sound quality and longevity.

Tip: Select the correct size for your needs (Large for louder, easier handling; Small for compact carry) and browse related tactical and duty items to complete your kit.
