Product short description:

Dual-purpose thigh kit with a double magazine pouch, ideal for users who need practical, reliable carry on the leg. Designed for quick, secure access to two magazines and small essentials during outdoor activities, sports, or work.

- **Material:** Durable, high-quality materials for long-lasting use and comfort.
- **Use:** Two dedicated magazine compartments for fast, secure access.
- **Fit:** Designed to sit comfortably on the thigh, keeping gear stable while you move.
- **Features:** Compact, practical layout that keeps essentials within easy reach.

Product description:

Product overview

The Kit Cosciale Doppio Uso con Doppio Porta Caricatore is a dual-use thigh rig and belt-mounted double magazine carrier designed for military, police, and tactical users as well as airsoft and shooting enthusiasts. It holds two magazines and can be worn on the thigh or converted for direct belt use.

Definition: a removable thigh support with two adjustable magazine pouches compatible with AR70/90 and M16 platforms. Built from durable, water-resistant materials, it is suitable for duty, tactical training, and civilian shooting sports.

Main features

Key design highlights that improve retention, comfort, and flexibility for field or range use.

- **Removable thigh support:** Detaches for quick conversion to a belt-mounted carrier.
- **Double anti-slip thigh straps:** Non-slip straps keep the buckles secure and prevent loosening during movement.
- **Adjustable, removable mag flaps:** Magazine flaps can be height-adjusted or removed to suit different magazine types.
- **Compatibility:** Designed for AR70/90 and M16; may fit similar rifle magazine profiles.
- **Water-resistant construction:** Materials selected for durability in varied weather conditions.
- **Multiple color options:** Available in several color variants to match uniform or gear.

How to use / When it’s useful

Wear the kit on the thigh with the dual straps for low-profile, stable access to magazines during patrols, range sessions, or training. Remove the thigh support to attach the carrier directly to your belt for a simpler loadout.

Quick answer: Use it as a thigh rig or convert it to a belt-mounted double mag carrier. In most cases, it fits AR70/90 and M16 magazines and works for duty, police, tactical, and recreational shooting needs.

Care and notes

Simple care keeps the kit functional and extends service life. Check attachments and fit before each use.

- Wipe clean with a damp cloth and mild soap; avoid harsh chemicals.
- Allow to air dry after exposure to water—materials are water-resistant, not fully waterproof.
- Verify compatibility with your magazines and rifles before use.
- Ensure straps and buckles are fastened securely to prevent slippage during activity.

FAQ

Q: Is the kit compatible with weapons other than AR70/90 and M16?

A: It is designed primarily for AR70/90 and M16 magazines but can be compatible with other magazines of similar size and shape. Check fit before relying on it in the field.

Q: Can I buy the thigh straps separately?

A: No, the double anti-slip thigh straps are sold as part of the complete kit and are not offered separately.

Q: Is the thigh support height adjustable?

A: Yes, the thigh support is adjustable to improve fit and comfort and can be removed for belt use.

Q: Which colors are available for this kit?

A: The kit is offered in several color variants to suit operational needs or personal preference. Select the available color when ordering.

Q: Is the kit waterproof?

A: The kit is made from water-resistant materials to handle wet conditions, but it is not fully waterproof—avoid prolonged immersion.

Q: Are the magazine flaps fixed or removable?

A: The magazine flaps are both height-adjustable and removable, allowing customization for different magazine types and retention preferences.

Tip: Choose the color variant that best matches your uniform or gear and verify magazine compatibility before checkout. Browse related tactical and military surplus carriers to complete your loadout selection.
