Product codes:

Reference: Art. 0138
EAN13: 0658606551329
UPC: 658606551329

Product features:

Product short description:

A lightweight plastic magnetic compass for hikers, campers and outdoor enthusiasts. Durable and weather-resistant, it offers reliable heading readings and simple operation for basic navigation.

- **Material:** Robust plastic housing for everyday outdoor use.
- **Needle:** Magnetized needle for quick, easy orientation.
- **Durability:** Built to withstand outdoor conditions and regular handling.
- **Use:** Compact and easy to carry in a pocket or pack.

Product description:

Product overview

The Magnetized Plastic Compass is a compact orientation tool for hikers, campers, scouts, and users of tactical or military surplus gear who need a simple, reliable direction aid. It is a small,

lightweight compass designed for general outdoor navigation and everyday carry.

Definition: a 4.2 cm diameter plastic compass with a dry movement and magnetized needle for direct reading of magnetic north. Its lightweight design (25 g) and protective box make it easy to carry in a pocket or pack.

Main features

Essential features that make this compass practical for outdoor, tactical, and duty use.

- **Durable plastic body:** sturdy construction for everyday outdoor use.
- **Dry movement:** smooth needle movement for quick readings.
- **Magnetized needle:** immediate detection of magnetic north for fast orientation.
- **Compact size:** 4.2 cm diameter fits easily in a pocket or small pouch.
- **Lightweight:** only 25 g, adds minimal weight to your kit.
- **Protective box included:** helps prevent scratches and impact damage during transport.

How to use / When it’s useful

Quick answer: Hold the compass level and keep it away from metal and electronic devices; the needle will point to magnetic north. The compass is pre-calibrated and ready to use straight from the box.

In most cases, this compass is ideal for basic navigation during hiking, camping, scouting and for people purchasing tactical or police duty gear from military surplus collections. It is intended for general outdoor use rather than certified high-performance or extreme-environment navigation.

Care and notes

Simple care keeps the compass accurate and extends its service life.

- Keep the compass dry; it is not water-resistant and should not be submerged.
- Avoid strong magnets and metal objects when using or storing the compass to prevent interference.
- Store the compass in the included protective box to reduce the risk of scratches or impacts.
- Do not rely on this compass for certified or technical navigation in extreme conditions.

FAQ

Q: Is the compass water-resistant?

A: No, this compass is not water-resistant. Keep it dry to preserve accuracy and prevent damage.

Q: Can I use this compass in extreme conditions?

A: It is designed for general outdoor use such as hiking and camping. It is not specifically built or certified for extreme environments.

Q: How do I calibrate the compass?

A: The compass is shipped pre-calibrated and ready to use. Avoid nearby metal or magnetic sources for accurate readings.

Q: Is the protective box included?

A: Yes, the compass comes with a protective box to help prevent damage during transport and storage.

Q: What is the size of the compass?

A: The compass has a diameter of 4.2 cm, making it compact and easy to carry in a pocket or small pack.

Q: How much does the compass weigh?

A: The compass weighs 25 grams, so it adds virtually no weight to your kit and is suitable for lightweight packing.

Tip: Check the 4.2 cm diameter and 25 g weight to ensure this size fits your needs, and browse related tactical, military surplus, and outdoor navigation items to complete your kit.
