- **Access:** Quick, secure draw for rapid deployment.
- **Modularity:** Modular platform lets you customize the setup to your needs.
- **Use:** Suitable for outdoor activities, tactical sports, and professional applications.

Product description:

Product overview

The Fondina Cosciale con Piattaforma Modulare VKL8 Land is a thigh holster designed for users who carry a Beretta 92/98—suitable for tactical, duty, and police use. It combines a modular thigh platform, double belt attachment and adjustable straps for stable carry during movement.

Definition: a polymer thigh holster with a thermoformed modular platform, a rotary safety system and noise?reducing internal lining.

Main features

Built for secure, comfortable carry and quick access, this model balances stability and quiet operation.

- **Double belt attachment** for extra stability on the belt.
- **Rotating buckle** to ease leg movement and adjust draw angle.
- **Double thigh strap** in reinforced elastic with triple silicone anti?slip bands for a secure fit.
- **High?quality polymer construction** for durability and light weight.
- **Rotary safety system** to keep the weapon secured when holstered.
- **Internal lining** designed to absorb noise and protect the firearm from scratches.
- **Thermoformed polymer thigh platform** provides a stable base for the holster.

How to use / When it’s useful

Quick answer: wear the platform on your thigh, attach both belt loops to your belt, then secure the elastic thigh straps and adjust the rotating buckle for comfort. The holster is made for the Beretta 92/98 and sized for that model.

In most cases, this holster is useful for tactical training, duty shifts or range sessions where a stable, low?profile thigh carry is preferred. The anti?slip straps and polymer platform reduce movement and help keep the weapon accessible and quiet.

Care and notes

Simple care keeps the holster functional and quiet; inspect straps and fittings regularly.

- Wipe the polymer surfaces with a damp cloth; avoid aggressive solvents.
- Check elastic straps and silicone bands for wear before each use.
- Designed specifically for Beretta 92/98—confirm compatibility before purchase.
- Available colors: Olive Green, Black, Coyote TAN; choose the variant that fits your kit.

FAQ

Q: Which firearms fit this holster?

A: The holster is designed specifically for the Beretta 92/98. Compatibility with other models is not guaranteed.

Q: Is the holster adjustable?

A: Yes. It features a rotating buckle and reinforced elastic thigh straps with silicone anti?slip bands for fine tuning fit and angle.

Q: What colors are available?

A: The holster is offered in Olive Green, Black and Coyote TAN to match common tactical and duty gear.

Q: Is the safety system easy to use?

A: The rotary safety system is designed to be intuitive while keeping the firearm secured when holstered.

Q: Will the holster make noise when I move?

A: The internal lining is intended to absorb noise and protect the weapon, reducing rattling during movement.

Q: Is this item in stock?

A: Stock levels can be limited; check current availability on the product page and select your preferred color while supplies last.

Tip: Choose the correct color and confirm Beretta 92/98 compatibility before adding to cart, and browse related tactical and duty holsters to compare fit and mounting options.
