- **Design:** Compact, space-saving profile that blends with any room.
- **Durability:** Robust construction designed for long service life.
- **Use:** Perfect for DIY projects, sewing, gift wrapping and storage.

Product description:

Product overview

The Porta Nastrini in Metal 13-Place is a metal ribbon rack designed for military personnel, veterans, and medal collectors who need a tidy, professional way to store and display service ribbons. Definition: a ribbon rack that holds up to thirteen individual ribbons for uniform or display

use.

Available from Tutto Militare, this metal organiser fits both 37 mm and 20 mm ribbon formats and comes with two rear attachment options so it works for field or dress use, collectors, and tactical display setups.

Main features

Solid, simple design focused on reliable display and easy installation.

- **Holds 13 ribbons** — fits up to thirteen individual ribbon bars.
- **Compatible sizes:** supports 37 mm and 20 mm ribbon formats.
- **Durable metal construction** — built to resist wear and keep ribbons secure.
- **Two attachment choices** — clip (morsetti) for quick mounting or screw-mounted for a permanent fit.
- **Pre-drilled holes** for fast, accurate installation.
- Neat, professional appearance suitable for military, tactical, duty, police, and collection displays.

How to use / When it’s useful

Use the ribbon rack to organise ribbons on a uniform, inside a display case, or on a presentation board. Select the clip version if you need to move or remove ribbons quickly; choose the screw version for a fixed, secure installation.

Quick answer: choose the clip attachment for temporary fitting, screws for a permanent mount. In most cases, the rack accepts standard 37 mm and 20 mm ribbon bars used by military and collector applications.

Care and notes

Basic care keeps the rack looking professional and prevents accidental loss of ribbons.

- Wipe with a soft, dry cloth to remove dust; avoid abrasive cleaners.
- Check clips or screws regularly and tighten as needed to keep ribbons secure.
- Choose the correct attachment type (clip or screws) for your intended use to prevent damage to the uniform or display.
- Store in a dry place to avoid corrosion over long periods.

FAQ

Q: Which ribbon sizes fit this rack?

A: The rack is compatible with 37 mm and 20 mm ribbon formats, covering the most common

military and collector ribbon bars.

Q: What attachment options are available?

A: You can choose a clip (morsetti) attachment for quick mounting or a screw-mounted option for a more permanent, stable installation.

Q: Is the Porta Nastrini easy to install?

A: Yes. The rack has pre-drilled holes and an intuitive design to make fitting ribbons fast and straightforward for users of all experience levels.

Q: Is the material durable?

A: The rack is made from a resistant metal intended to withstand regular use and keep ribbons firmly in place.

Q: How do I buy the correct variant on Tutto Militare?

A: Use the dropdown menu on the Tutto Militare product page to select the attachment type (clip or screws) and the ribbon format (37 mm or 20 mm) before adding to your cart.

Q: Is the product often in stock?

A: Availability can be limited due to demand. If the item shows low stock, selecting your preferred variant quickly helps ensure you get the model you need.

Tip: Pick the attachment and ribbon size that match your uniform or display—use the dropdown on Tutto Militare to choose the correct variant. Consider browsing related tactical and military surplus display items to complete your setup.
