Product short description:

The Black Fox Resilience BF-204 multi-tool pliers is a compact, lightweight tool for campers, DIYers and everyday carry. It pairs robust construction with practical functions for outdoor activities and home repairs.

- **Material:** Made from high-quality materials for durability and long service life.
- **Tools:** Includes knife, screwdriver and bottle opener for common tasks.
- **Use:** Suited to camping, household repairs and general everyday carry.
- **Handle:** Ergonomic grip ensures a secure, comfortable hold during use.
- **Safety:** Locking mechanism provides safe operation and storage.

Product description:

Product overview

The BlackFox RESILIENCE BF-204 is a full-size stainless-steel multi-tool pliers designed for duty

users and outdoor enthusiasts, suitable for police, military, paramedics, firefighters and tactical civilians. Definition: it is a full-size multi-purpose pliers with a stainless 420 blade and handle, PVD-treated finish, and a nylon sheath.

Built for durability and everyday use, the RESILIENCE BF-204 combines a sharp 8 cm (3.15") blade, ergonomic stainless handle, fixed pocket clip and a lightweight Nylon® sheath for easy carry. It fits duty, tactical and military surplus kit where a reliable, compact tool is required.

Main features

Key features at a glance:

- **Materials:** blade and handle in stainless steel 420.
- **Blade length:** 8 cm (3.15") with PVD surface treatment for added wear resistance.
- **Handle:** ergonomic stainless steel 420 for secure grip.
- **Clip:** integrated fixed clip in stainless 420J2B for pocket or belt carry.
- **Sheath:** durable, lightweight Nylon® sheath included.
- **Hardness:** calibrated HRC 55–57 for balance of toughness and flexibility.

How to use / When it’s useful

Quick answer: carry the RESILIENCE BF-204 on your belt or in its nylon sheath for on-duty tasks, field repairs, cutting and general utility work. The full-size design gives you better leverage than smaller multi-tools while remaining portable.

In most cases, use the blade for cutting and general-purpose tasks and rely on the full-size pliers for gripping and light-duty work. It is suitable for tactical, duty and outdoor scenarios such as patrols, field maintenance, range sessions, first-response tasks and everyday carry.

Care and notes

Basic care will keep the tool reliable over time:

- Clean and dry after use to reduce corrosion risk, especially after exposure to salt or moisture.
- Occasional light oiling on pivot points preserves smooth operation.
- Keep the blade sharp with standard sharpening methods; follow steel 420 recommendations.
- The pocket clip is fixed (not removable) by design for secure carry.

FAQ

Q: What is the blade length of the BlackFox RESILIENCE BF-204?

A: The blade measures 8 cm (3.15"). It is sized for general cutting and utility tasks common to duty and outdoor use.

Q: What material is the handle made from?

A: The handle is made from stainless steel 420, matching the blade material for consistent strength and corrosion resistance.

Q: Does the BF-204 come with a sheath?

A: Yes. The tool includes a durable Nylon® sheath designed for lightweight, secure carry and quick access.

Q: What is the hardness of the blade?

A: The blade hardness is calibrated between HRC 55–57, offering a balance of edge retention and toughness for general-purpose use.

Q: Is the pocket clip removable?

A: No, the integrated clip is fixed to ensure secure and reliable carry on a pocket or belt.

Q: Is the blade surface treated?

A: Yes, the blade surface is treated with a PVD finish to improve wear resistance and help maintain appearance during regular use.

Tip: Choose the right carry option for your routine—belt with the Nylon® sheath for duty use or pocket carry with the fixed clip for everyday tasks—and browse related tactical and duty gear to complete your kit.
