Product short description:

The Puma 55 cm machete is a practical full-size cutting tool supplied with a nylon sheath. Intended for outdoor and field tasks, it provides reliable performance for campers, hunters, rangers and anyone needing a long cutting edge for general-purpose work.

- **Brand:** Puma
- **Length:** 55 cm
- **Sheath:** Nylon sheath included for carrying and storage
- **Use:** Clearing brush, chopping and general outdoor cutting tasks
- **Care:** Wipe clean and store dry after use

Product description:

Product overview

The Puma Machete 55 with nylon sheath is a fixed-blade tool for outdoor users, gardeners, survivalists and tactical gear buyers who need a robust, easy-to-handle cutting tool. It suits general clearing, camp tasks and garden work while fitting tactical or military surplus product

lines.

Definition: a 55 cm machete with a 42 cm teflon-coated AISI 420 stainless steel blade and a 13 cm ergonomic handle designed for reliable cutting and corrosion resistance.

Main features

Solid construction and practical design focused on durability, grip and safe transport.

- **Teflon-coated AISI 420 stainless steel blade (42 cm)** — resists corrosion and reduces friction for smoother cuts.
- **Ergonomic handle (13 cm)** — shaped for comfort and fitted with an anti-slip grip for secure handling.
- **Total length 55 cm** — balanced between reach and control for a wide range of tasks.
- **Black nylon sheath** — durable cover with a secure closure to protect the blade and aid safe transport.
- Suitable for outdoor, survival and garden use; listed commonly in tactical and military surplus categories.

How to use / When it’s useful

Quick answer: Use this machete for cutting vegetation, clearing brush, light chopping and general outdoor tasks like gardening or campsite preparation. Its length and blade type make it useful for both fine slicing and heavier chopping.

In most cases, carry the machete in its nylon sheath for transport and use the anti-slip handle for wet or humid conditions. The sheath’s secure closure helps prevent accidental exposure of the blade during movement.

Care and notes

Basic care keeps the blade reliable and extends its service life. Follow these simple steps:

- Clean and dry the blade after use to prevent corrosion and remove sap or dirt.
- Apply a light coat of oil to the blade if stored for long periods.
- Store and transport the machete in the nylon sheath; ensure the closure is fastened to avoid accidents.
- Keep out of reach of children and handle with care—this is a sharp cutting tool.

FAQ

Q: What are the overall dimensions of the machete?

A: The machete measures 55 cm in total length, with a 42 cm blade and a 13 cm handle. These

dimensions balance reach and control for common outdoor tasks.

Q: What material is the blade made from?

A: The blade is AISI 420 stainless steel with a teflon coating. This combination offers corrosion resistance and reduced friction while cutting.

Q: Does the machete come with a sheath?

A: Yes, it includes a black nylon sheath with a secure closure designed to protect the blade and make carrying safer.

Q: Is the handle slip-resistant?

A: Yes, the 13 cm ergonomic handle features an anti-slip grip to improve hold in wet or humid conditions.

Q: Is this machete suitable for gardening and survival use?

A: Yes—it is suitable for gardening, clearing vegetation and general outdoor or survival tasks where a durable cutting tool is needed.

Q: How should I maintain the blade?

A: Wipe the blade clean after use, dry thoroughly, and apply a light oil before long-term storage. Use the sheath for transport and secure the closure to prevent accidents.

Tip: Choose the right size for your needs and browse related tactical, outdoor and garden tools to complete your kit; consider handle comfort and blade length when selecting a machete variant.
