Product short description:

Three-piece chrome pole for flag or labaro, designed for organizations, associations and ceremonial displays. It offers a practical, refined solution to present a flag with a professional appearance.

- **Material:** High-quality construction with a chrome finish for a clean, modern look and enhanced durability.
- **Design:** Modular three-piece construction for easy transport, compact storage and flexible setup.
- **Assembly:** Easy to assemble and disassemble, convenient for events, ceremonies and mobile use.
- **Use:** Suitable for official displays, parades, meetings or everyday presentation of flags and labaro.

Product description:

Product overview

This is a chrome three-piece flagpole designed for displaying flags or labari (ceremonial standards). It suits offices, associations, ceremonial uses and shops offering tactical, military surplus or police gear.

Definition: A 3-piece chrome pole made of three 73 cm sections with a 22 mm diameter and a total length of 2.09 m, for indoor and outdoor flag display.

Main features

Simple, sturdy construction with features for both flags and labari—easy to assemble and designed for visible, professional presentation.

- **High-quality chrome material:** Clean, professional finish that resists everyday wear.
- **Three-piece screw assembly:** Three sections (73 cm each) join by screwing for fast setup without special tools.
- **Dual hooks for versatility:** Square hook for the labaro crossbar, round hook for the flag rope.
- **Optimal dimensions:** Diameter 22 mm; total length 2.09 m for a wide range of flag sizes.
- **Indoor and outdoor use:** Designed to withstand normal weather conditions for exterior display.
- **Stable and robust:** Sectioned design that balances portability with solidity for duty and ceremonial display.

How to use / When it’s useful

Quick answer: Assemble the three threaded sections by hand, attach the appropriate hook (square for labaro bar, round for flag rope), and mount or hold the pole where needed. The screw-fit design makes setup fast and tool-free.

In most cases, this pole is useful for ceremonies, offices, clubs, or retail displays, and works well for tactical or military surplus presentations and police/duty displays. It is portable enough for temporary events and long enough for standard interior or exterior displays.

Care and notes

Basic care keeps the chrome finish and threaded joints working well; inspect fittings regularly and avoid unnecessary exposure to extreme conditions.

- Wipe with a soft cloth to remove dirt and fingerprints.
- Check threaded joints and hooks periodically for tightness and wear.
- Store disassembled when not in use or during severe weather to extend life.
- Avoid forcing threads; tighten by hand to secure sections without damaging the screw fit.

FAQ

Q: What is the total length of the pole?

A: The total length is 2.09 meters, made from three 73 cm sections joined together.

Q: Can I use this pole outdoors?

A: Yes. The pole is designed for indoor and outdoor display and resists normal weather conditions. Regular inspection is recommended for long-term outdoor use.

Q: How do I assemble the pole?

A: The sections screw together with a threaded system. No special tools are required—hand-tighten each joint until secure.

Q: Which types of flags or standards fit this pole?

A: The pole supports both flags and labari: the square hook holds a labaro crossbar, while the round hook secures a flag rope.

Q: What material is the pole made from?

A: The pole has a chrome finish for a professional look and durability. Clean and inspect periodically to maintain the finish.

Q: What is the pole diameter and section length?

A: Each section has a diameter of 22 mm and a length of 73 cm; three sections combine to form the 2.09 m total length.

Tip: Choose the pole if your display needs a portable, professional-looking solution; check measurements against your flag or labaro before ordering and consider browsing related mounting accessories or bases to complete the setup.
