**Product price:**

**€99.00 tax included**

**Product codes:**

Reference: Art. 14802

EAN13: 0658606564565

UPC: 658606564565

**Product features:**

## **Product short description:**

Chromed traversina for labaro (ceremonial banner). An elegant, functional crossbar that adds a polished finish to standards and banners; suited for military, civic and ceremonial displays.

- **Material:** High-quality construction with a durable chromed finish for a refined appearance.
- **Mounting:** Fitted with a square ring and sturdy attachment rings for stable installation.
- **Use:** Ideal for ceremonies, official events and exhibitions where a neat presentation is required.
- **Assembly:** Easy to mount on standard banner poles for quick setup and reliable performance.

## **Product description:**

### **Product overview**

The Traversina Cromata per Labaro con Anello Quadro e Anelli is a chrome-plated crossbar designed for displaying labari and gonfaloni. It is aimed at municipal, ceremonial, military, police and tactical display uses where a secure, neat flag presentation is required.

**Definition:** a chrome metal traversina (crossbar) with a square ring and cord rings for attaching and stabilizing a drape on a flagstaff.

### Main features

Built for stable, formal flag display indoors or outdoors, this traversina combines durable materials with practical attachment points.

- **High-quality material:** Chrome-plated metal for durability and weather resistance.
- **Square ring (Anello Quadro):** Secure, easy engagement with the staff hook to reduce flapping.
- **Cord rings:** Multiple rings to attach cordons or secure the drape neatly.
- **Threaded holes for finials:** Internal threads allow mounting of brass or gold-colour pinecone finials.
- **Standard width:** 70 cm, suitable for most labari and gonfalon.

### How to use / When it's useful

Quick answer: slide the square ring onto the staff hook, attach the drape to the cord rings, and secure any finials in the threaded holes. This provides a stable, formal presentation for parades, ceremonies, council rooms, and memorials.

In most cases, the traversina is used for ceremonial and civic displays by municipal offices, veteran groups, police units, and organizations handling military surplus or tactical displays. For outdoor events, ensure the crossbar and attachments are properly tightened before use.

### Care and notes

Simple maintenance keeps the traversina looking and performing well over time.

- Wipe with a soft, damp cloth to remove dust and road grime; dry promptly to preserve the chrome finish.
- Check fit on the staff hook and tighten all fittings before use to prevent movement in wind.
- Inspect threaded holes before mounting finials to ensure secure attachment.
- Store dry when not in use to extend the life of metal components.

### FAQ

**Q:** What are the dimensions of the traversina?

**A:** The traversina has a width of 70 cm, which fits most labari and gonfalon used in civic and ceremonial displays.

**Q:** Can I mount finials on the traversina?

**A:** Yes. The traversina includes internal threaded holes that accept brass or gold-colour pinecone finials for a finished look.

**Q:** Is the product weather resistant?

**A:** The traversina is chrome-plated metal, offering good resistance to weather. Regular cleaning and drying will help maintain the finish.

**Q:** How does the square ring work with the flagstaff?

**A:** The square ring (anello quadro) slides onto the staff hook and provides a stable base that reduces the drape from flapping, keeping the flag visible during events.

**Q:** Are there attachment points for cords?

**A:** Yes. The traversina has cord rings to secure the drape or cordons neatly and prevent slipping during display.

**Q:** Is this suitable for police or military surplus displays?

**A:** Yes. It is suitable for ceremonial and display use by police units, military groups, veteran associations and other organizations that handle military surplus or tactical displays.

**Tip:** Choose the correct width and check staff compatibility before purchase; browse related ceremonial flag fittings and finials to complete your display setup.
