Product short description:

This Aeronautica Militare olive-green bomber jacket blends classic military styling with everyday wearability. Designed for those seeking a refined casual look, it delivers comfort and durable performance for cooler weather.

- **Material:** High-quality fabrics for comfort and long-lasting wear.
- **Design:** Iconic bomber silhouette with distinctive embroidered Aeronautica Militare logo.
- **Use:** Ideal for casual and smart-casual occasions when temperatures drop.
- **Fit:** Regular fit that layers easily over sweaters and mid-layers.

Product description:

Product overview

The Giubbino Bomber Aeronautica Militare Verde Oliva is a military-style pilot bomber jacket designed for men who need a practical, everyday outer layer for urban, tactical, or casual use. Definition: a water-repellent poplin bomber with a removable thermal lining, left-sleeve pocket and a Velcro Italy patch.

Made in olive green with quality materials and thoughtful details, it works for cooler seasons and milder weather. Availability is limited and demand is high, so this model is suitable for buyers seeking durable military surplus or duty-style outerwear.

Main features

Key specifications and features that matter for fit, protection and functionality.

- **Fabric:** Poplin, 80% cotton / 20% nylon, water-repellent finish.
- **Detachable thermal lining:** Polyamide thermal lining that can be removed for use in milder conditions.
- **Sleeve pocket:** Left-arm pocket with pen holder and zip closure for small essentials.
- **Velcro Italy patch:** Removable Italy shield fixed with Velcro for authentic styling.
- **Front closure:** Side zip for easy wear and secure fit.
- **Model:** Pilot bomber L2BB, olive green — tactical, military surplus and duty-style keywords apply.

How to use / When it's useful

Quick answer: Use it as a pilot or field-style bomber for commuting, travel, or layered cold-weather wear. The removable lining lets you adapt the jacket to different temperatures.

In most cases, wear it as an outer layer over a sweater or midlayer for autumn and winter, remove the lining for spring and cool evenings. It works well for tactical-style outfits, casual city wear, and light duty use where a water-repellent finish is helpful.

Care and notes

Simple care keeps the jacket performing and looking its best.

- Hand wash or machine wash on a gentle/delicate cycle using a mild detergent.
- Remove the thermal lining and the Velcro patch before washing to protect components.
- Avoid bleach and strong detergents; reshape and hang to dry.
- Water-repellent does not mean fully waterproof—expect protection from light rain and humidity, not prolonged heavy downpours.

FAQ

Q: What sizes are available for this bomber?

A: Sizes available range from S to XXL. Check the store's size guide to confirm chest and sleeve measurements before ordering.

Q: Is this jacket suitable for winter?

A: Yes. The removable polyamide thermal lining provides extra warmth for cold weather; remove it when temperatures rise.

Q: Is the jacket waterproof?

A: The fabric is water-repellent, offering good protection against light rain and damp conditions, but it is not fully waterproof for heavy or prolonged rain.

Q: How should I wash the bomber jacket?

A: Wash by hand or in a machine on a delicate cycle with mild detergent. Remove the lining and Velcro patch before washing and hang to dry.

Q: Can I remove the Italy patch?

A: Yes. The Italy shield is attached with Velcro and can be removed or reattached as needed.

Q: What is the material and model reference?

A: The jacket is poplin, 80% cotton and 20% nylon, model L2BB (pilot bomber) in olive green.

Tip: Choose the right size by consulting the size guide and consider the removable lining when selecting fit; browse related military surplus and tactical jackets for matching layers and accessories.
