Product short description:

Gold metal disc for cap badges — a small, refined accessory that adds a tasteful, distinguished touch to dress caps and formal headgear. Suitable for collectors, uniform enthusiasts, and anyone seeking a subtle, numberless emblem.

- **Material:** Metal with a gold finish for an elegant appearance.
- **Use:** Intended as a disc for cap badges to enhance berets and dress caps.
- **Numbering:** Plain disc without any number or inscription.
- **Compatibility:** Neutral, versatile design that integrates with various badge settings and cap styles.

Product description:

Product overview

The Dischetto Metallo Dorato Senza Numero per Fregio Berretto is a 14 mm gold?tone metal disc designed to secure a cap badge on an Esercito cap; it is intended for users who need a discreet, professional fastener for military, tactical, or duty headgear. Definition: a small, number?free

metal disc with side?wing closure for attaching a metal cap badge.

This neutral gold finish works with a range of metal cap badges and is suitable for military surplus collections, tactical uniforms, police or duty use where a subtle, durable fastening is required.

Main features

Simple, reliable construction with a professional appearance and universal fit for metal cap badges.

- **Material:** gold?tone neutral metal for a refined look.
- **No number:** blank disc for universal use with any metal cap badge.
- **Size:** 14 mm (compact and discreet).
- **Closure:** side?wing (alettes) clasp for quick, secure attachment.
- **Durability:** finish designed to maintain appearance with regular use.

How to use / When it’s useful

Quick answer: insert the disc through the badge fixing and secure it by folding the side wings; the closure is made for fast, stable installation. In most cases, this method keeps the disc firmly in place without additional tools.

Use this disc when you want a low?profile, professional finish on an Esercito cap or when fitting a metal badge from military surplus, tactical, police or duty gear. Its small size avoids altering the cap’s design while providing a reliable hold.

Care and notes

Basic care keeps the disc looking its best and ensures a lasting fit.

- Wipe with a soft, dry cloth to remove dirt or fingerprints.
- Avoid abrasive cleaners or strong chemicals that can affect the finish.
- Ensure the side wings are folded securely to prevent loosening during use.
- Available in limited quantities; check stock before purchasing.

FAQ

Q: Is this disc compatible with all metal cap badges?

A: Yes, it is designed as a universal, number?free disc for use with most metal cap badges, especially those for Esercito caps.

Q: How do I attach the disc to the badge?

A: Attach by placing the disc over the badge post and folding the side wings (alettes) to lock it in place. No special tools are usually required.

Q: Will the gold finish fade over time?

A: The gold?tone metal is made to retain its appearance with regular use, though avoiding harsh chemicals and abrasion will prolong the finish.

Q: What is the exact size of the disc?

A: The disc measures 14 mm, a compact size intended to be discreet while providing effective fastening.

Q: Are there other finishes or numbered versions available?

A: This listing describes the neutral gold finish without numbers. Check our catalog for other variants if available; current stock may be limited.

Q: Is this suitable for tactical or police uniforms?

A: Yes, the neutral gold disc works on a variety of caps used in tactical, police, duty and military surplus applications where a subtle, professional appearance is wanted.

Tip: Choose the correct disc size and check compatibility with your cap badge before ordering; browse related cap badge fittings and fastening accessories to complete your uniform or collection.
