Product short description:

A green nylon belt with a black 3-prong buckle and a safety button, designed for users who want durable, practical gear with a modern casual look. Ideal for outdoor activities, everyday wear or situations where a comfortable, reliable belt is required.

- **Material:** High-quality nylon for long-lasting durability and comfort.
- **Buckle:** Black 3-prong buckle with a safety button to ensure a secure closure.
- **Use:** Suitable for outdoor activities, casual outfits and daily use.
- **Design:** Functional, understated style that adds personality to your wardrobe.

Product description:

Product overview

The Nylon Green Belt with Black 3-Prong Quick-Release Buckle and Safety Button is a durable utility belt designed for military, tactical, police, and outdoor use. Definition: a sturdy nylon

duty/tactical belt, 5.5 cm high and adjustable to 120 cm, made for carrying holsters, pouches and basic gear.

Built for everyday field use and light-duty carrying, this belt works with suspenders via eyelets at each end and features a high-strength black plastic buckle with a safety release. Suitable for military surplus setups, duty belts, airsoft and security work.

Main features

Key features at a glance:

- **Material:** Green nylon webbing for long-lasting wear.
- **Size:** Height 5.5 cm; length adjustable up to 120 cm.
- **Buckle:** Black high-strength plastic quick-release buckle with safety button.
- **Attachment:** 3-prong buckle design for stable closure.
- **Suspenders:** Eyelets on both ends allow attachment of suspenders.
- **Load:** Designed to carry holsters, pouches and other small accessories.

How to use / When it’s useful

Use the belt as a duty or tactical belt by threading standard holsters and pouches onto the webbing and securing the 3-prong buckle. Quick answer: put it on like a regular belt, adjust to fit, then attach suspenders if needed.

In most cases, wear it for patrols, training, airsoft, hiking, or any role that requires carrying light equipment at the waist. The eyelets let you add suspenders for extra support during longer missions or hikes.

Care and notes

Basic care keeps the belt functional and safe for repeated use.

- Hand wash with mild soap and cold water; air dry away from direct heat.
- Check the buckle and 3-prong attachment regularly for wear or damage before use.
- Do not overload the belt beyond what the webbing and buckle can comfortably support.
- Ensure suspenders and accessories are compatible with the belt width (5.5 cm).

FAQ

Q: What is the maximum length of the belt?

A: The belt adjusts up to 120 cm in length. Adjust by sliding the webbing through the buckle to find a secure fit.

Q: Is this belt suitable for outdoor activities?

A: Yes. It is suitable for hiking, airsoft, and other outdoor activities where a durable tactical or duty belt is needed.

Q: Is the buckle strong and reliable?

A: The buckle is a high-strength black plastic quick-release type with a safety button for secure closure and rapid release when needed.

Q: Can I use this belt with suspenders?

A: Yes. Eyelets on both ends allow compatible suspenders to be attached for extra support and weight distribution.

Q: What accessories can I carry on this belt?

A: The belt is designed for holsters, pouches and similar lightweight accessories commonly used in tactical, police, or outdoor setups.

Q: How do I adjust the fit for different waist sizes?

A: Loosen the buckle, slide the webbing to lengthen or shorten, then secure the buckle and test the fit. Make small adjustments while wearing gear to ensure comfort and stability.

Tip: Choose the correct length variant for your waist and equipment needs, and check compatible holsters, pouches, or suspenders in our related items to build a complete duty or tactical setup.
