Product features:

Product short description:

Single double-stack magazine pouch made from high-quality Cordura, designed for users who need a compact, durable carrier for a single magazine (Porta Caricatore Singolo Bifilare Cordura). Suitable for outdoor activities, professional use, or everyday carry.

- **Material:** Heavy-duty Cordura nylon for abrasion and tear resistance.
- **Capacity:** Holds one double-stack magazine securely without excess bulk.
- **Closure:** Secure retention keeps the magazine firmly in place during movement.
- **Compatibility:** Easily attaches to belts and backpacks for convenient carry.

Product description:

Product overview

The Porta Caricatore Singolo Bifilare Cordura is a single magazine pouch made of high-strength Cordura, designed for users who need a durable, low-profile magazine carrier—sport shooters,

military personnel, and police officers. Definition: a compact Cordura pouch for 9 mm double-stack pistol magazines that mounts to a belt.

Built for tactical, duty, and military surplus use, this pouch combines durability, adjustable retention and belt compatibility to keep a spare 9 mm magazine secure and accessible during training or operations. Stock is limited due to demand.

Main features

Key features at a glance:

- **Material:** High-strength Cordura for wear and tear resistance.
- **Caliber fit:** Designed for 9 mm double-stack pistol magazines.
- **Secure closure:** Height-adjustable double snap for reliable retention.
- **Belt fit:** Rear Velcro-adjustable loop fits a range of belt widths.
- **Compact size:** 4.5 x 13 x 2 cm (W x H x D) for a low profile on the belt.
- **Color options:** Available in green, black and blue to match gear or uniform.

How to use / When it’s useful

Wear the pouch on your belt using the rear Velcro loop; adjust the loop and the snap height for a snug fit around the magazine. Use the snap closure to secure the magazine during movement and release it quickly when you need to reload.

Quick answer: It is worn on the belt for fast, secure access to a spare 9 mm magazine. In most cases, it suits range sessions, duty carry, and tactical training—always check magazine fit before relying on it in operational use.

Care and notes

Basic care keeps the pouch functional and extends its life. Inspect attachment points and fasteners regularly.

- Wipe clean with a damp cloth; avoid machine washing to protect Cordura and snaps.
- Check the double snap and Velcro adjustment frequently for wear.
- Verify magazine compatibility and retention before field use.
- Follow local regulations and department rules for carrying magazines or accessories.

FAQ

Q: Which magazines fit this pouch?

A: The pouch is designed for 9 mm double-stack pistol magazines. Fit can vary by magazine model, so test the specific magazine you plan to use.

Q: Is the pouch weather-resistant?

A: Cordura offers good resistance to abrasion and light weather exposure. For prolonged wet conditions, allow the pouch to dry and avoid prolonged submersion.

Q: How does the height adjustment work?

A: The closure uses a double snap with height adjustment to increase or decrease retention pressure and magazine coverage for a better fit.

Q: What belt sizes does it fit?

A: The rear loop is Velcro-adjustable to fit a range of belt widths; confirm fit with your belt before active use.

Q: Which colors are available?

A: Available colors are green, black and blue, letting you match uniform, tactical loadout, or civilian gear.

Q: Is this suitable for duty or tactical use?

A: Yes—it's suitable for range, duty and tactical training when fitted and adjusted correctly. Always follow your agency's equipment policies and local laws.

Tip: Choose the color and test the pouch with your specific 9 mm magazines and belt before regular use; consider browsing related tactical and duty gear to complete your setup.
