How to use / When it’s useful

Quick answer: wear it under the arm for discreet carry and reach the weapon with a natural draw stroke. Use it for plainclothes duty, off-duty carry, or situations where a low-profile holster is preferred.

In most cases, the holster works best when paired with clothing that keeps it stable at the underarm and allows a direct draw path. When ordering, specify your pistol model in the provided field so we can match the fit to your weapon.

Care and notes

Simple care keeps the leather looking and performing well:

- Wipe clean with a dry or slightly damp cloth; avoid soaking the leather.
- Apply a leather conditioner occasionally to maintain suppleness and longevity.
- Always indicate the exact weapon model when reserving to ensure proper fit.
- Check local laws and follow safe firearm-handling practices when carrying.
