Product features:

Product short description:

Tubolari Agente Mod. Forestale are tubular accessories for forestry personnel, designed to complete the uniform and support field operations with durable, practical construction.

- **Material:** Made from high-quality materials for lasting performance in varied weather.
- **Use:** Suited to forestry agents and field professionals who need practical uniform accessories.
- **Fit:** Ergonomic design ensures comfort during extended wear and easy handling.
- **Visibility:** Reflective details improve visibility and contribute to safer working conditions.
- **Application:** Easy to put on and remove, combining functionality with a professional appearance.

Product description:

Product overview

The Tubolari Agente Mod. Forestale are hard plastic identification sleeves designed for agents of the Corpo Forestale. They provide a clear, professional way to display role or rank on uniform or

duty gear.

Definition: a durable plastic sleeve (6 cm wide x 9 cm high) with dark grey body and green edging, made for visible identification on tactical and duty uniforms.

Main features

Practical, low-profile design built for repeated field use and rapid identification.

- **Material:** High-quality, durable plastic for regular operational use.
- **Color:** Dark grey sleeve for a professional, sober look.
- **Green profiling:** Distinctive green edge to indicate affiliation with the Corpo Forestale.
- **Dimensions:** 6 cm width × 9 cm height for clear visibility.
- **Visibility:** Sized and colored to be quickly identified on uniform or duty gear.
- **Suitable for:** Tactical, military surplus, and general duty applications.

How to use / When it’s useful

These tubolari are used whenever clear identification of Corpo Forestale personnel is needed on uniform or equipment. They work well on jackets, smocks, or other outer layers where a sleeve or patch is appropriate.

Quick answer: Use the tubolare where your unit requires visible ID on duty gear. In most cases, they improve on-the-spot recognition during field operations, inspections, and joint activities with other services.

Care and notes

Simple care keeps the sleeve legible and functional for longer service life.

- Clean with a soft, damp cloth; avoid abrasive cleaners.
- Store flat or attached to gear to prevent bending or cracking.
- Check unit regulations before use to ensure conformity with uniform rules.
- Available in limited quantities; stock may run low due to demand.

FAQ

Q: What are the exact dimensions?

A: The tubolari measure 6 cm in width and 9 cm in height. These proportions are intended for easy visibility on standard uniforms.

Q: What material are they made from?

A: They are made from a resistant, high-quality plastic chosen for durability during routine duty and field activities.

Q: What color and markings do they have?

A: The sleeve is dark grey with a green profiling edge to indicate Corpo Forestale affiliation and allow fast recognition.

Q: Can I use them on any uniform or jacket?

A: Yes, they are suitable for use on outer garments and duty gear, but always follow your unit’s uniform regulations for placement and use.

Q: Where can I buy the Tubolari Agente Mod. Forestale?

A: The tubolari are sold through Tutto Militare and similar authorized retailers that stock military surplus and duty equipment. Check stock levels before ordering.

Q: Why choose these tubolari for duty use?

A: They offer a practical combination of durability, clear identification, and a professional appearance suited to tactical and duty environments.

Tip: Choose the correct size and check your unit’s regulations before purchase; also browse related tactical and duty accessories to complete your uniform setup.
