Product features:

Product short description:

The Red Dot Js Tactical 1x40GRD is a compact reflex sight for shooters who need fast target acquisition and reliable performance. It provides a clear, bright red dot in a rugged, shock-resistant housing, and is designed to be easy to mount and adjust for use in varied lighting conditions.

- **Use:** Fast target acquisition and improved aiming for tactical, range, and field applications.
- **Reticle:** Sharp, bright red dot for good visibility across different light levels.
- **Construction:** Robust, shock-resistant body built for demanding use.
- **Installation:** Simple to mount and adjust for quick setup on compatible platforms.
