Product short description:

Guanti Tactical Series SBB are rugged, breathable gloves designed for outdoor activities, extreme sports and manual work. They offer balanced protection and comfort while preserving dexterity for tasks that require precision.

- **Material:** Durable, breathable fabrics with reinforced areas for long-lasting wear and ventilation.
- **Use:** Ideal for outdoor use, extreme sports and general manual or tactical tasks that need protection and mobility.
- **Fit:** Ergonomic cut for a close, natural fit that supports fine motor control during extended use.
- **Protection:** Strategic reinforcements protect high-wear zones while maintaining grip and tactile feedback.

Product description:

Product overview

The Tactical Series SBB gloves are durable, multi-purpose gloves for outdoor work, tactical use, and active sports. They suit users who need reliable hand protection with good dexterity—law enforcement, security personnel, cyclists, climbers, and DIY enthusiasts.

Definition: Tactical Series SBB gloves are a flexible, protective glove with a Fourway fabric back, silicone impact pads, and a non-slip synthetic leather palm. Keywords: tactical gloves, military surplus style, duty gloves.

Main features

Built for protection and grip without sacrificing hand movement.

- **Fourway back:** Stretch fabric on the back of the hand for enhanced flexibility and freedom of movement.
- **Silicone impact pads:** Strategically placed silicone protectors to reduce abrasion and light impacts.
- **Non-slip synthetic leather palm:** High-quality artificial leather provides a secure grip in wet or sweaty conditions.
- **Touchscreen compatibility:** Works with most smartphones and tablets so you can operate devices without removing the gloves.
- **All-round use:** Designed for outdoor tasks, extreme sports, and manual work where protection and grip matter.

How to use / When it’s useful

Quick answer: Use these gloves whenever you need hand protection plus dexterity—handling tools, cycling, climbing, or general outdoor work. They are made to balance protection and mobility for duty and recreational use.

In most cases, the gloves perform well in cool or wet conditions when you need grip and abrasion resistance. For heavy impact tasks or specialized cold-weather operations, consider purpose-built insulated or impact-rated alternatives.

Care and notes

Follow basic care to keep the gloves performing and extend their service life.

- Machine wash on a low-temperature cycle and follow the garment label instructions.
- Avoid high heat when drying; air dry to preserve materials and silicone parts.
- Durability depends on use and maintenance; inspect wear points regularly.
- Sizes available: S to XL — check sizing guide to ensure a correct fit.

FAQ

Q: What sizes are available for the Tactical Series SBB gloves?

A: Sizes range from S to XL. Use the seller’s sizing guide to measure your hand and choose the best fit for comfort and dexterity.

Q: Can I wash these gloves in a washing machine?

A: Yes, they can be machine washed on a low-temperature cycle. Follow the care label and air dry to avoid damaging the materials.

Q: Are these gloves suitable for sports like climbing or cycling?

A: Yes. Their grip and flexibility make them suitable for climbing, cycling, hiking, and other active sports where hand protection and tactile control are needed.

Q: How long will the gloves last?

A: Lifespan depends on frequency of use and care. With regular maintenance and normal use, they can remain serviceable for multiple seasons.

Q: Are these gloves effective in bad weather?

A: They are designed to offer protection and improved grip in cool or wet conditions, but they are not a substitute for insulated or fully waterproof gloves in extreme climates.

Q: Do the silicone protections limit hand movement?

A: No. The silicone protectors are placed to reduce abrasion and light impacts while maintaining flexibility, thanks to the Fourway back fabric.

Tip: Choose the right size using the sizing guide and consider related tactical or duty gloves if you need extra insulation or higher impact protection; add the Tactical Series SBB to your cart when you’re ready.
