- **Portability:** Compact and lightweight—easy to store in a home, vehicle or backpack.
- **Quality:** Components selected for reliability so you can care for yourself and others.

Product description:

Product overview

The First Aid Kit Medicazione is a compact, portable first-aid set designed for everyday use, travel, outdoor activities, and duty environments such as tactical, military surplus, and police gear. It is intended for anyone who needs a small, ready-to-use kit for minor injuries and basic wound

care.

Definition: a small first-aid pack containing dressings, adhesive strips, burn gel, and single-use antiseptic wipes for quick treatment of cuts, abrasions, and burns.

Main features

Practical, belt-ready design with essential supplies for cleaning and dressing minor wounds. The kit is olive green and includes a belt loop for easy carry.

- 1 bandage 4x6 DIN
- 1 sterile gauze 18 x 40 cm (single)
- 5 adhesive strips 2 x 7 cm
- 5 adhesive strips 7 x 2.4 cm
- 1 burn gel 3.5 g
- 2 alcohol wipes 70%
- 2 Cloroxidine wipes
- 2 ammonia wipes 4%

How to use / When it’s useful

Use the alcohol, Cloroxidine, or ammonia wipes to clean skin around minor wounds before applying a sterile gauze or adhesive strip. Apply the burn gel to cooling minor burns, then cover with a sterile dressing.

Quick answer: This kit is best for immediate, basic first aid on the move—travel, hiking, patrols, or home use. In most cases, treat the wound with the supplied antiseptic wipes, cover with the gauze or strips, and seek professional care for serious injuries.

Care and notes

Store the kit in a cool, dry place and check contents and expiry dates regularly to ensure items remain usable.

- Check expiration dates on the burn gel and wipes before use.
- Wipes and single-use dressings are disposable—do not reuse.
- Not a substitute for professional medical treatment; seek medical help for severe wounds or burns.
- Keep out of reach of children; adult supervision is recommended when used on minors.

FAQ

Q: Is this kit suitable for international travel?

A: Yes. The kit is compact and designed for travel. Always check airline and country regulations for carrying medical items and liquids.

Q: How long does the burn gel last?

A: The burn gel is long-lasting but has an expiration date printed on the package. Replace expired items before use.

Q: Are the wipes single-use?

A: Yes. All wipes in the kit are single-use to ensure hygiene and reduce the risk of contamination.

Q: Can I use this kit for children?

A: Yes. The kit contains supplies safe for use on children, but always use under adult supervision and seek professional care if needed.

Q: Can the kit be restocked after use?

A: Yes. The individual components can be replaced as needed—check contents and buy matching items to refill the kit.

Q: What is the kit color and how do I carry it?

A: The kit is olive green and includes a belt loop for easy carry on a belt or pack, making it suitable for tactical, duty, and outdoor use.

Tip: Choose the right variant or size for your needs and check expiry dates before purchase. Consider browsing related tactical and first-aid items to build a complete duty or travel medical kit.
