**Product features:**

**Product short description:**

The Sotto Cintura Imbottita padded under-belt liner provides support and protection for professionals and active users who wear belts for work or sport. It fits under the belt to reduce pressure and prevent discomfort during long shifts or physical activity.

- **Material:** Made from high-quality materials for durability and comfort.
- **Fit:** Conforms to the body for a secure, low-profile fit under belts.
- **Padding:** Extra cushioning absorbs pressure and reduces friction.
- **Use:** Suitable for everyday use, work and sports when a discreet supportive accessory is needed.

**Product description:**

## Product overview

The Padded Under-Belt is a padded liner designed for users of heavy duty belts who need extra comfort and support during long shifts or field use. It is ideal for tactical, police, and military surplus applications where a duty belt is worn for extended periods.

Definition: a cushioned under-belt that fits beneath a duty or tactical belt to reduce pressure and improve fit. Available in black and in sizes Small to X-Large; limited stock may apply.

**Main features**

Built for durability and daily use, the Padded Under-Belt improves comfort and integrates with rigid belt systems.

- **High-quality materials:** durable fabric with internal padding for long-wear comfort.
- **Compatibility:** designed to work with double-strap extra-rigid belts and similar duty belts.
- **Ergonomic design:** outer edge finished with 4 cm high gathered Velcro for secure, adjustable fit.
- **Multiple sizes:** Small, Medium, Large and X-Large to match a wide range of waist measurements.
- **Black finish:** professional, low-visibility color suitable for uniforms and tactical gear.

**How to use / When it’s useful**

Slide the padded liner under your duty belt so the padded side rests against your body and the Velcro edge aligns with the belt for a secure hold. Use it whenever you wear a heavy belt to reduce local pressure and improve comfort during long patrols, training, or fieldwork.

Quick answer: use this under a rigid or double-strap belt to add cushioning and prevent chafing. In most cases, choose the size that matches your waist measurement for best stability and comfort.

**Care and notes**

Simple care extends the life of the liner and keeps the black color intact.

- Spot clean with mild detergent and let air dry; avoid machine washing if possible.
- Check Velcro compatibility before use to ensure a secure fit with your belt.
- Choose the correct size to prevent slipping or bunching under the belt.
- Color is designed to remain stable under normal use; avoid prolonged sun exposure when not in use.

## FAQ

**Q:** What materials are used in the Padded Under-Belt?

**A:** The liner is made from durable textile with internal padding for comfort. Materials are chosen for long-term wear and resistance to daily use.

**Q:** Is it compatible with other belts?

**A:** Yes. It is designed for use with double-strap extra-rigid belts and will fit many similar duty or tactical belt systems that accept a Velcro-backed liner.

**Q:** How do I choose the right size?

**A:** Measure your waist over clothing where you normally wear your belt. Select the size range (Small 76–91 cm, Medium 89–103 cm, Large 101–115 cm, X-Large 113–127 cm) that includes your measurement for the best fit.

**Q:** Will the black color fade over time?

**A:** The black finish is made to hold its tone under normal use. Avoid excessive sun exposure and follow care instructions to help preserve color.

**Q:** Can I return the liner if it does not fit?

**A:** Returns are accepted according to our standard return policy. Please check the policy period and condition requirements before returning.

**Q:** How should I clean the padded liner?

**A:** Spot clean with mild soap and cold water and air dry. Avoid high-temperature washing and drying to protect padding and Velcro components.

**Tip:** Choose the size that best matches your waist measurement and consider related duty-belt accessories for a complete setup. Browse similar tactical and police gear items to build a comfortable, functional belt system.
