Product short description:

Porta Nastrini a 7 Posti is a compact ribbon holder for crafters, hobbyists and home spaces. It stores up to seven ribbons in an orderly, accessible way, making it simple to pick the right ribbon for any project.

- **Material:** Made from high-quality materials for reliable everyday use.
- **Capacity:** Holds up to seven ribbons, keeping each visible and tangle-free.
- **Use:** Suited to craft rooms, sewing areas, workshops and children's rooms.
- **Design:** Compact, space-saving layout with sturdy construction for long service life.

Product description:

Product overview

This metal ribbon bar holder is designed for military, police and duty uniforms to display up to seven service ribbons in a neat, professional row. It is ideal for personnel who need an organized, durable solution for carrying decorative ribbons on dress or duty uniforms.

Definition: a metal ribbon bar holder that secures up to seven ribbons on a uniform. Built for tactical, military surplus and professional use, it balances durability and a clean appearance.

Main features

Compact, robust and simple to fit, the 7-slot metal ribbon holder offers options for different uniform needs and ribbon sizes.

- **Holds up to 7 ribbons:** Neatly lines up seven ribbon strips for clear display.
- **High-quality metal:** Durable construction treated to resist corrosion for longer life in varied environments.
- **Two fastening options:** Clip (morsetti) for quick fit or screw (viti) for a firmer, more permanent attachment.
- **Two ribbon widths:** Available for 37 mm (standard) and 20 mm (compact) ribbons to match different decorations.
- **Uniform compatibility:** Designed to fit most dress and duty uniforms used by military, police and tactical units.

How to use / When it’s useful

Quick answer: choose the clip version for fast, non-permanent fitting and the screw version when you need a stable, long-term mount. Select the 37 mm or 20 mm size to match your existing ribbons before ordering.

In most cases, clips are preferred to avoid making holes in fabric; screws are used when a secure anchor is required by uniform regulations. If you choose screws, follow your service’s guidance and use the proper tools to attach the holder safely.

Care and notes

Basic care keeps the ribbon holder functional and presentable without special maintenance.

- Wipe with a soft, dry cloth; avoid abrasive or chemical cleaners that could damage the finish.
- Regularly check clips or screws for tightness and reposition ribbons if needed.
- If using the screw option, follow uniform rules and use appropriate tools to avoid damaging the garment.

FAQ

Q: What is the difference between the clip and screw attachments?

A: Clips allow quick, non-permanent mounting and reduce fabric damage risk. Screws provide a firmer attachment for long-term use or when stronger anchoring is needed.

Q: Is this ribbon holder compatible with all uniforms?

A: It is compatible with most dress and duty uniforms, but always check your unit’s uniform regulations and the available space on your garment before fitting.

Q: Are the ribbons included with the holder?

A: No, ribbons are not included. The holder is sold separately and meant to carry ribbons already owned by the customer.

Q: Can the holder be customized?

A: There are no custom engraving or color options currently. You can choose the attachment type and ribbon width (37 mm or 20 mm) to suit your needs.

Q: How do I clean the ribbon holder?

A: Clean with a soft, dry cloth and avoid aggressive chemical cleaners. This preserves the metal finish and corrosion resistance.

Q: Is the metal resistant to rust?

A: The metal is treated to resist corrosion, making it suitable for use in humid or demanding conditions, though regular care is recommended.

Tip: Choose the correct attachment type (clip or screws) and ribbon width (37 mm or 20 mm) before ordering, and browse related tactical and military surplus accessories to complete your uniform setup.
