Product short description:

The Zaino TarPaulin 60 Litri Vegetato Tactical Laser is a 60 L backpack designed for outdoor adventures and tactical use. Built from durable, waterproof materials, it provides a rugged, reliable carry solution for outdoor enthusiasts and tactical users.

- **Material:** Durable, waterproof construction for weather resistance.
- **Capacity:** 60 L capacity, ideal for carrying essential gear.
- **Design:** Vegetato camouflage with laser-cut detailing for a modern look and improved wear resistance.
- **Comfort:** Ergonomic, padded shoulder straps for long carries.
- **Use:** Suited to outdoor adventures, trekking and tactical applications.

Product description:

Product overview

The TarPaulin 60L Vegetato Laser-Cut Backpack is a heavy-duty tactical pack designed for outdoor enthusiasts, professionals, and anyone needing a reliable carry solution for camping, hiking, or duty use. It combines durable materials, modular attachment points, and a comfortable harness for long days in the field.

Definition: a 60?liter cordura 1000D tactical backpack with laser-cut MOLLE-style attachment slots and an internal pocket for a ballistic plate. Available in vegetato camouflage; limited stock is common due to high demand.

Main features

Built for durability and modular use, this backpack balances load capacity with organization and operator comfort.

- **1000D Cordura construction:** rugged, abrasion-resistant fabric for long service life.
- **Laser-cut vegetato exterior:** clean MOLLE-style attachment points for pouches and accessories.
- **60 litres capacity:** roomy central compartment plus a front compartment for organization.
- **Padded honeycomb back and adjustable straps:** breathable back padding and adjustable shoulder straps for extended wear.
- **Internal ballistic plate pocket:** accepts a plate to add a layer of protection (verify plate size separately).
- **Carry handle and D-rings:** sturdy hand carry option and D-rings for quick accessory anchoring.

How to use / When it’s useful

Use the TarPaulin 60L for multi-day hikes, patrols, gear transport, or as part of a military surplus or police kit. The laser-cut attachment points make it easy to configure pouches for medical, comms, or utility gear.

Quick answer: pack bulky items in the main compartment and frequently used items in the front pocket for fast access.
In most cases, adjust the shoulder straps and waist strap to stabilize loads and reduce fatigue during long carries.

Care and notes

Simple care extends the pack’s life while keeping features like the laser-cut panels and padding functional.

- Wipe clean with a damp cloth; avoid harsh solvents or bleach.
- Cordura 1000D is water-resistant but not fully waterproof—use a rain cover for heavy or prolonged exposure.

- Verify ballistic plate dimensions and certification separately before inserting into the internal pocket.
- Inspect stitching and attachment points regularly if used with heavy modular pouches.

FAQ

Q: What is the backpack capacity?

A: The TarPaulin holds 60 litres of gear, suitable for overnight trips, extended day hikes, or equipment loads for duty use.

Q: What material is the pack made from?

A: It is made from 1000D Cordura, a durable, abrasion-resistant fabric commonly used in tactical and military surplus gear.

Q: Are the laser-cut panels compatible with MOLLE accessories?

A: Yes, the laser-cut vegetato exterior provides MOLLE-style attachment slots for adding pouches and modular accessories.

Q: Can I insert a ballistic plate?

A: The pack includes an internal pocket designed to accept a ballistic plate. Always confirm the plate’s size and certification separately before use.

Q: Is the backpack comfortable for long periods?

A: The honeycomb-padded back and adjustable shoulder straps are designed to improve comfort during extended wear. Adjust fit for load balance.

Q: What are the backpack dimensions?

A: Dimensions are 32 cm (W) x 45 cm (H) x 28 cm (D), offering a compact footprint with substantial internal volume.

Tip: Choose the right variant and check the plate pocket size before buying; consider browsing related tactical and military surplus packs to match your loadout and mission needs.
