Product short description:

Show your pride with the USA Flag Rubber Patch — a durable, low-profile accessory for personalizing backpacks, jackets, or caps. Ideal for outdoor enthusiasts, military surplus collectors, or anyone adding a patriotic touch to their gear.

- **Material:** Durable rubber with a raised, detailed design.
- **Attachment:** Adhesive backing or hook-and-loop (Velcro) for quick, secure fit.
- **Appearance:** Vivid colors and fine detailing designed to resist fading.
- **Use:** For backpacks, jackets, caps — great for outdoor gear or casual wear.

Product description:

Product overview

The Patch USA Flag in Rubber is a durable rubber flag patch with hook-and-loop (Velcro) backing, designed for tactical clothing, military surplus gear, and police uniforms. It is ideal for outdoors enthusiasts, service members, and anyone who wants a removable USA flag patch for jackets, plate carriers, or backpacks.

Definition: a rubber USA flag patch with Velcro backing for easy attachment and removal. The patch offers a balance of visibility and low profile, available in high-visibility and low-visibility variants to match different environments.

Main features

Key features at a glance for quick product comparison and selection.

- **High-quality rubber:** made to resist daily wear and maintain shape.
- **Hook-and-loop backing:** simple to attach and remove on compatible surfaces.
- **Size:** 7 cm width x 4.8 cm height — visible without being bulky.
- **Visibility options:** available in high-visibility and low-visibility variants selectable from the drop-down menu.
- **Realistic design:** faithful USA flag detail for clear identification.
- **Moisture-resistant:** rubber construction tolerates wet conditions without immediate deterioration.

How to use / When it’s useful

Attach the patch to any garment or gear with a compatible Velcro field — jackets, plate carriers, backpacks, caps, and tactical pouches are common applications. It is useful when you need removable identification or want to change your kit setup quickly.

Quick answer: stick the patch onto a Velcro-compatible surface and press firmly to secure. In most cases, use the high-visibility version for identification and the low-visibility version for subdued, tactical use.

Care and notes

Follow simple care steps to keep the patch functional and looking good.

- Remove the patch before machine washing garments to protect the Velcro and patch edge.
- Wipe clean with a damp cloth; avoid harsh chemicals or abrasives.
- Attach only to surfaces with matching hook-and-loop material for secure hold.
- Availability is limited and demand is high; check stock before finalizing larger orders.

FAQ

Q: Is the patch waterproof?

A: The rubber material is moisture-resistant and holds up in wet conditions, but it is not a sealed, submersible product. Prolonged immersion is not recommended.

Q: How do I apply the patch?

A: Align the patch with a compatible Velcro surface, press firmly for a few seconds. It attaches instantly and can be removed just as easily.

Q: Are other sizes available?

A: This patch is currently offered only in the stated size: 7 cm (width) x 4.8 cm (height).

Q: Can I wash clothing with the patch on?

A: It’s recommended to remove the patch before machine washing to preserve the Velcro and patch edges. Hand-cleaning the patch separately is best.

Q: Is the patch suitable for all fabrics?

A: The patch works with most fabrics that have a loop-side Velcro field. It will not adhere securely to fabrics without Velcro or to very smooth surfaces.

Q: What’s the difference between high and low visibility variants?

A: The high-visibility version uses brighter contrast for clear identification, while the low-visibility version is subdued for tactical, low-profile use.

Tip: Choose the visibility variant that matches your intended use (identification vs. subdued tactical look) and confirm the 7 cm x 4.8 cm size fits your gear before checkout; browse related tactical and military surplus patches for matching options.
