Product short description:

The Airspace Control Category Badge is a professional badge for air traffic control personnel and aviation staff. Made from high-quality materials, it represents the precision and responsibility of those who manage air traffic.

- **Material:** High-quality materials with a refined, durable finish.
- **Use:** Symbol of commitment and competence for airspace control personnel.
- **Wear:** Designed to be worn with pride on uniforms or professional clothing.
- **Design:** Elegant, detailed design for a distinctive professional accessory.

Product description:

Product overview

The Distintivo Categoria Controllo Spazio Aereo is a gold-colored metal badge issued for personnel involved in airspace control within the Aeronautica Militare. It is suitable for service members, uniform collectors, and anyone who needs an official-looking insignia for jackets or shirts.

Definition: a metal category badge representing qualification or assignment in airspace control for the Aeronautica Militare.

Main features

Key features at a glance:

- **Distinctive design:** a round emblem showing the Italian peninsula set between two open wings, symbolizing airspace protection and control.
- **Material:** gold-colored metal, finished to keep its appearance over time.
- **Two sizes available:** large jacket format (65 mm x 16 mm) and reduced shirt format (40 mm x 10 mm).
- **Secure fastening:** rear clamp-style fasteners to hold the badge in place.
- **Official product:** identified as a product of the Aeronautica Militare.
- **Suitable uses:** fits duty uniforms, ceremonial jackets, or military surplus displays.

How to use / When it’s useful

Quick answer: wear the large format on jackets and the reduced format on shirts, or choose the size that best matches your uniform or display needs. The badge attaches with clamp-style fasteners for simple fitting.

In most cases, this badge is used on duty or ceremonial uniforms, collectors’ displays, or as part of tactical clothing and military surplus gear. Choose the size based on the garment and the desired visual impact.

Care and notes

Basic care keeps the badge looking professional and ensures the fasteners remain reliable.

- Wipe gently with a soft, dry cloth to remove fingerprints and dust.
- Avoid prolonged exposure to moisture or chemicals that could affect the finish.
- Check the clamp fasteners regularly to ensure a secure fit.
- Follow service regulations when wearing official insignia on uniforms.
- Limited stock: consider ordering soon if you need multiple pieces.

FAQ

Q: What sizes does the badge come in?

A: The badge is available in two sizes: large jacket format 65 mm x 16 mm and reduced shirt format 40 mm x 10 mm. Select the size from the product menu.

Q: What material is the badge made of?

A: The badge is made from a gold-colored metal designed to be durable and maintain its appearance over time.

Q: How does the badge attach to clothing?

A: The badge uses rear clamp-style fasteners that hold it securely in place on fabric. Check fasteners periodically to ensure they remain tight.

Q: Can I buy the badge in large quantities?

A: Stock is limited and demand can be high. If you need multiple badges, it is advisable to place your order early.

Q: Is this an official Aeronautica Militare item?

A: Yes, the description identifies this badge as a product of the Aeronautica Militare, representing the airspace control category.

Q: Is this badge suitable for tactical or collector use?

A: Yes. It is suitable for display with tactical gear, military surplus collections, duty uniforms, and ceremonial wear, depending on the rules that apply to official insignia.

Tip: Choose the correct size for your garment—65 mm x 16 mm for jackets or 40 mm x 10 mm for shirts—and check related tactical and military surplus items in our store to complete your uniform or display.
