Product short description:

The Distintivo Categoria Fisica Aeronautica Militare is a badge for personnel and collectors, representing commitment and competence within the Aeronautica Militare. Its refined, detailed design is suitable for wear on uniforms or for display in a collection.

- **Material:** Made from high-quality materials for a lasting appearance.
- **Design:** Elegant, detailed finish suitable for uniform placement or display.
- **Use:** Wear on service dress or keep as a collector’s item.
- **Recognition:** A tangible symbol for those who have reached notable milestones in aeronautical physics.

Product description:

Product overview

The Distintivo Categoria Fisica Aeronautica Militare is a gold-coloured metal badge for personnel and collectors connected to Aeronautica Militare technical roles. It is intended for use on jackets and shirts as a symbol of category recognition within the air force community.

Definition: a category badge showing the physics symbol between two wings, produced in a gold metal finish with rear clamp attachments for secure mounting.

Main features

Clear, durable design made for uniform display and collection.

- **Distinctive design:** Physics symbol inside a roundel between two open wings.
- **High-quality finish:** Gold-coloured metal for long-lasting appearance.
- **Two sizes:** Jacket size 65 mm x 16 mm and shirt size 40 mm x 10 mm.
- **Secure fixing:** Rear clamp attachments provide a stable hold on most fabrics.
- **Professional recognition:** Serves as a visible sign of category and competence within Aeronautica Militare.
- **Appeals to:** military surplus collectors, tactical gear enthusiasts, and duty uniform buyers.

How to use / When it’s useful

Quick answer: fasten the badge using the rear clamp attachments, positioning the badge on the jacket or shirt where insignia are normally worn. In most cases, the larger 65 mm x 16 mm version is used on outer jackets and the 40 mm x 10 mm on shirts or inner uniforms.

Use this badge when you need a clear, service-related identifier for formal events, ceremonies, or for display in a collection. Check your unit’s dress rules before wearing it on official duty attire to ensure compliance with regulations.

Care and notes

Simple care keeps the badge looking sharp and ensures the clamps hold securely.

- Wipe gently with a soft, dry cloth to remove dust or fingerprints.
- Avoid strong chemicals or abrasives that could affect the finish.
- Check clamps before and after use to prevent damage to delicate fabrics.
- Limited stock: shipping generally within 5–7 business days from order.

FAQ

Q: What sizes are available?

A: Two sizes are offered: jacket size 65 mm x 16 mm and shirt size 40 mm x 10 mm. Choose the size that fits your uniform placement.

Q: How is the badge attached?

A: The badge uses rear clamp attachments that grip the fabric for a secure hold. Make sure the

clamps are properly closed to avoid loosening.

Q: What material is the badge made of?

A: It is made from a gold-coloured metal with a durable finish. The exact metal composition is not specified.

Q: Can the badge be customized?

A: Currently the badge is sold in the standard design only, featuring the physics symbol between two wings. No custom variants are offered at this time.

Q: How long does delivery take?

A: Delivery times can vary, but the product is generally shipped within 5–7 business days after the order is placed. Availability is limited, so allow for possible delays.

Q: Is it allowed to wear this badge on official uniforms?

A: The badge represents the Aeronautica Militare category; unit dress regulations vary. Always confirm with your commanding officer or the appropriate dress code before wearing it on official duty uniforms.

Tip: Choose the correct size for your intended use—jacket size for outer uniforms, reduced size for shirts—and check clamp fit before wearing. Consider browsing related items in our military surplus and tactical gear categories to complete your uniform or collection.
