Product short description:

The Distintivo Categoria Armamento Aeronautica is a distinguished badge for professionals in the aeronautical sector and collectors. Crafted from high-quality materials, it represents the pride and dedication of those working in aviation and reflects technical skill.

- **Material:** High-quality construction with a detailed, durable finish.
- **Use:** Suitable for display or wearing by enthusiasts and aeronautical personnel.
- **Design:** Elegant, detailed motif that echoes advanced technology and expertise.
- **Tribute:** Honors the role and history of the aeronautica militare and those who contribute to safety and innovation in the skies.

Product description:

Product overview

The Distintivo Categoria Armamento Aeronautica is a golden metal badge that identifies membership and competence within the Aeronautica Militare armament category. It is intended for service members, uniform collectors, and tactical/military surplus enthusiasts who value

authentic insignia for uniforms, displays, or collection.

Definition: a metal badge (Categoria Armamento — Aeronautica Militare) featuring a central roundel with a flaming bomb above two crossed rifles, set between two open wings. This badge signals affiliation and technical role in aeronautic armament.

Main features

Clear, durable construction and two wearable sizes make this badge suitable for jackets, shirts, and display use.

- **Distinctive design:** Between two open wings, a roundel shows a flaming bomb surmounting two crossed rifles.
- **Material:** Gold-colored metal for durability and long-lasting appearance.
- **Two sizes:** Jacket size 65 mm x 16 mm; shirt/reduced size 40 mm x 10 mm.
- **Attachment:** Rear clamp fasteners provide a secure hold on most garments.
- **Versatile use:** Suitable for uniforms, displays, and military surplus or tactical collections.
- **Limited availability:** Stock is limited; select your size from the dropdown menu.

How to use / When it’s useful

Quick answer: Pin the badge to a jacket or shirt using the rear clamp fasteners; choose the jacket size for outer garments and the reduced size for shirts. The clamps secure the badge without pins or sewing.

In most cases, wear the 65 mm x 16 mm badge on service jackets and the 40 mm x 10 mm version on shirts or light uniforms. It also works well as a display piece for collectors of military surplus, tactical gear, or duty insignia.

Care and notes

Basic care extends the badge life and preserves garment condition; handle clamps with care to avoid fabric marks.

- Remove the badge before machine washing to prevent damage to the garment and the fastener.
- Wipe gently with a soft, dry cloth to clean; avoid abrasive cleaners or chemicals.
- Store in a dry place to prevent tarnishing or moisture damage.
- Warning: clamp fasteners may leave marks on very thin or delicate fabrics—test on an inconspicuous area first.

FAQ

Q: What sizes are available?

A: The badge is offered in two sizes: jacket size 65 mm x 16 mm and reduced shirt size 40 mm x 10 mm. Choose the size from the product menu.

Q: How does the badge attach to clothing?

A: It uses rear clamp fasteners for a secure fit. The clamps hold well on most fabrics without sewing or separate pins.

Q: What material is the badge made of?

A: The badge is made of gold-colored metal designed for durability and long-term display.

Q: Can I buy multiple badges in one order?

A: Yes, you can order more than one badge. Keep in mind stock is limited, so ordering sooner ensures availability.

Q: Is this badge appropriate for all Aeronautica Militare members?

A: The badge represents the Categoria Armamento within the Aeronautica Militare and is suitable for members and those who collect or display authentic insignia. It does not imply official authorization beyond its symbolic meaning.

Q: Will the clamp fasteners damage my uniform?

A: In most cases the clamps are secure and safe for standard uniform fabrics. For very delicate or thin materials, test on a hidden area first to check for marks.

Tip: Select the correct size (65 mm x 16 mm for jackets, 40 mm x 10 mm for shirts) and check availability before purchasing. Consider browsing related military surplus and tactical insignia to complete your uniform or display collection.
