Tubolari Plastica su Nero Sottotenente are plastic sleeve bands for officers and uniformed personnel who want a neat, professional appearance. The sober black design fits most uniforms and is suitable for ceremonies, official events and daily duty.

- **Material:** Durable plastic construction.
- **Design:** Sober black finish for a professional look.
- **Fit:** Easy to apply and remove; stays secure on sleeves.
- **Use:** Suitable for ceremonies, official events and daily duty.

Product description:

Product overview

These are a pair of plastic tubular rank patches for the Sottotenente (Sub?Lieutenant), designed for personnel serving in the Esercito. They are intended for use on the shoulder sleeves of the

Esercito jacket and suit uniform identification needs for duty and ceremonial use.

Definition: A pair of plastic tubular rank insignia (black background) showing a five?point gold star heat?sealed inside a gold frame. Suitable for military, tactical, and military surplus collectors who meet purchase requirements.

Main features

Durable, low?profile rank patches made to fit standard Esercito shoulder sleeves; clear visual rank identification for duty uniforms.

- **Material:** Sturdy plastic construction for wear resistance.
- **Design:** Black background with a five?point gold star heat?sealed inside a gold frame.
- **Easy to fit:** Made to apply on the shoulder sleeves (controspalline) of the Esercito jacket.
- **Size:** 5.5 cm wide x 9 cm high (pair).
- **Intended users:** Reserved for Esercito personnel; available to verified collectors under legal conditions.

How to use / When it’s useful

Quick answer: Slide or position the tubular patches onto the jacket shoulder sleeves (controspalline) so the star faces outward and aligns with the uniform’s rank placement. They are designed for quick, secure application on standard Esercito jackets.

In most cases: Use these on duty or parade jackets to show Sottotenente rank. They are also useful for tactical uniforms where a low?profile, durable insignia is required and for collectors preparing uniform displays, provided purchase conditions are met.

Care and notes

Basic care keeps the patches readable and durable; avoid prolonged exposure to extreme heat and store flat when not in use.

- Wipe clean with a damp cloth; do not use solvents.
- Store flat to avoid deformation of the plastic tube shape.
- Sales restricted: purchase requires copy of military ID or, during registration, the barracks address as delivery location.
- Collectors must provide the prefectural license ex art. 28 TULPS to complete the order.

FAQ

Q: Who can buy the Tubolari Plastica su Nero Sottotenente?

A: Sale is reserved to Esercito personnel and to collectors who provide the required prefectural

license ex art. 28 TULPS. Identification is verified before shipping.

Q: What are the exact dimensions of the tubular patches?

A: Each tubular patch measures 5.5 cm in width and 9 cm in height; the product is sold as a pair.

Q: What materials are used?

A: The patches are made of durable plastic with a five?point gold star heat?sealed inside a gold frame on a black background.

Q: How are the patches applied to the uniform?

A: They are designed to be applied on the shoulder sleeves (controspalline) of the Esercito jacket; align and slide into place according to your unit’s uniform practice.

Q: Can I buy these without a military ID?

A: No. Purchase requires a copy of military ID or, at registration, the barracks address as the delivery location. Collectors must submit the prefectural license ex art. 28 TULPS.

Q: Are these suitable for tactical or everyday duty use?

A: Yes. They are made for durable wear on duty and can be used on tactical or dress uniforms where the standard tubular rank patch is required.

Tip: Choose the correct pair for the Sottotenente size and check your unit’s placement rules before ordering; browse related uniform rank items to complete your set.
