How to use / When it's useful

Quick answer: fit the crowns to the shoulder board using the rear screws and position them 5 mm from the outer edge. In most cases, senior officers wear these crowns alone or with silver stars according to rank.

Use these crowns when you need a formal rank insignia on the standard uniform: for parades, official duties, or everyday service where correct insignia placement is required. Stars for ranks such as Maggiore, Tenente Colonnello or Colonnello are placed above the crown as described for accurate presentation.
