How to use / When it’s useful

Quick answer: Use this polo as official uniform wear for patrols, station duties, training and other non-combat assignments where a smart, functional appearance is required. It suits both active duty and administrative shifts where correct insignia and a neat presentation are needed.

In most cases, the polo is worn as part of the standard uniform with rank and identification attached. It also works well layered under outer garments for variable weather or when a tactical, low-profile option is needed during duty.
