Product short description:

Operator Embroidered Patch is a professional ID patch for uniformed staff and tactical operators. High-quality construction and durable embroidered detail give a clean, professional appearance.

- **Material:** High-quality materials with robust embroidery.
- **Use:** For uniforms, backpacks or jackets to provide clear identification.
- **Attachment:** Practical fastening system for quick fit and removal.
- **Options:** Multiple colors and styles to match your gear.

Product description:

Product overview

The Targhetta Ricamata Operatore is an embroidered name patch designed for operators, medical staff, security, police, and tactical or duty uniforms. It is intended for anyone who needs a clear, professional identification patch that attaches with Velcro.

Definition: a white-backed embroidered patch with the word "Operatore" in red thread and a

Velcro backing for quick attachment to uniforms. Size: 11 cm length x 2.5 cm height.

Main features

Simple, durable design made for easy use on scrubs and uniforms.

- **Embroidered design:** Red thread lettering on a white background for clear visibility.
- **Compact size:** 11 cm L x 2.5 cm H — visible without being bulky.
- **Velcro backing:** Quick attach/removal for fast uniform changes.
- **Durable construction:** Made from materials designed to withstand regular use and washing.
- **Suitable for:** Tactical, police, medical, security and other duty uniforms.

How to use / When it’s useful

Quick answer: peel and press the patch onto a matching loop (Velcro) panel on your uniform — place it on the chest or sleeve where IDs are normally shown. The Velcro backing makes it easy to move between garments.

In most cases, it fits any uniform that has a loop panel; if your garment does not have a loop area, consider adding a loop patch or having a small tailor adjustment. Use it where clear, professional identification is required during shifts or operations.

Care and notes

Basic care keeps the patch looking neat and preserves the embroidery and Velcro.

- **Machine wash safe:** Designed to tolerate normal machine washing; close the Velcro before washing.
- **Protect embroidery:** Fasten the patch and wash on a gentle cycle to reduce abrasion.
- **Velcro care:** The hook-and-loop backing is made to grip securely while minimizing damage to fabric.
- **Drying:** Avoid high-heat drying when possible to preserve thread and backing.

FAQ

Q: Is the patch machine washable?

A: Yes. The patch is made from durable materials and can be machine washed. Fasten the Velcro before washing and use a gentle cycle if possible.

Q: Can the Velcro damage my scrub or uniform fabric?

A: The Velcro is designed to be gentle and grip without harming typical uniform fabrics. Fastening

the patch before laundering reduces any risk of abrasion.

Q: Can the text be customized?

A: The current standard item is embroidered with "Operatore." For customization requests, please contact customer service to discuss options and lead times.

Q: Will this patch fit all types of scrubs and uniforms?

A: It fits garments that have a loop (Velcro) panel. If your uniform lacks a loop area, you can add a loop patch or consult a tailor for attachment options.

Q: How long does delivery take?

A: Shipping times vary by location. Typically the patch is dispatched within 3–5 business days from the order date.

Q: What are the exact dimensions?

A: The patch measures 11 cm in length and 2.5 cm in height — compact enough for chest or sleeve placement while remaining clearly legible.

Tip: Choose the best placement for visibility on your uniform and check compatible loop panels before purchase. Browse related patches and hook-and-loop accessories to complete your duty or tactical kit.
