How to use / When it’s useful

Quick answer: attach the badge to any loop-side velcro panel on your uniform or tactical gear. It’s intended for visible yet low-profile identification on combat shirts, jackets, vests and backpacks.

In most cases, place it on the chest, shoulder or sleeve loop area where parachutist insignia are customarily worn. Use it for field operations, training, display on military surplus items, or as part of police and duty kit.
