Product features:

Product short description:

Open-top handcuff pouch in black Cordura, designed for security professionals, police and tactical personnel who need fast access and dependable carrying for restraints. A practical, reliable companion for dynamic environments.

- **Material:** Durable black Cordura fabric provides reliable protection and long service life.
- **Access:** Open-top design allows immediate extraction of handcuffs for rapid deployment.
- **Closure:** Secure fastening keeps handcuffs firmly in place during movement and operations.
- **Fit:** Lightweight, compact profile fits most belts and tactical equipment for easy carry.

Product description:

Product overview

The Portamanette Aperto in Cordura Nera is an open handcuff pouch made for police, security officers, and military personnel who need fast, reliable access to restraints. It combines durable Cordura fabric with a simple open design to keep handcuffs secure yet immediately reachable.

Definition: An open-style black Cordura handcuff pouch designed for quick access and daily duty use by law enforcement and tactical professionals.

Main features

Compact, robust and built for regular use, this pouch blends durability with practical features suited to duty, tactical, and military surplus gear.

- **Material:** Heavy-duty black Cordura for abrasion and weather resistance.
- **Open design:** Fast access to handcuffs when seconds count.
- **Secure closure:** Snap safety button plus a belt loop (passante) to hold the pouch in place.
- **Compact size:** 9 cm wide × 9 cm high — discreet and easy to carry.
- **Versatile fit:** Compatible with multiple handcuff types and models.
- **Lightweight:** Durable without adding significant bulk to duty gear.

How to use / When it’s useful

Attach the pouch to your belt via the passante and position it at your hip or rear for quickest draw. The open-style mouth allows you to reach and grip the handcuffs without unfastening complex covers.

Quick answer: Use it for arrests, patrols, security checks, and any situation requiring rapid restraint application. In most cases, place it where your dominant hand naturally rests for the fastest access during an incident.

Care and notes

Basic care keeps the pouch functional and long-lasting; inspect attachment points and the snap regularly to ensure reliability during use.

- Wipe clean with a damp cloth; air dry away from direct heat.
- Check stitching and the snap button periodically for wear.
- Ensure the pouch is firmly secured to your belt before active duty.
- Avoid exposure to harsh chemicals that may weaken fabric or hardware.

FAQ

Q: What are the exact dimensions?

A: The pouch measures 9 cm in width and 9 cm in height, making it compact and suitable for standard duty belts.

Q: What material is the pouch made from?

A: It is made from black Cordura, a strong, abrasion-resistant fabric commonly used in tactical and military surplus gear.

Q: Will it fit my handcuffs?

A: The open design and flexible Cordura construction make it compatible with most standard handcuff models used by police and security professionals.

Q: How does the security system work?

A: A belt passante keeps the pouch firmly attached, while a snap safety button retains the handcuffs during movement but is easy to open when needed.

Q: Is this suitable for military use?

A: Yes. Its rugged Cordura build and reliable retention make it appropriate for both law enforcement and military duty contexts.

Q: How should I maintain the pouch?

A: Wipe clean with a damp cloth, air dry, and routinely inspect the snap and stitching to ensure ongoing safety and performance.

Tip: Choose the pouch placement (hip or rear) and belt attachment that match your duty routine, and check related tactical accessories to complete your setup without adding unnecessary bulk.
