How to use / When it’s useful

Use this soggolo to replace or maintain the chinstrap on the rigid service cap of the ordinary Army uniform. It restores the correct appearance and identification for duty and ceremonial use.

Quick answer: fit the ribbon to the cap at temple level where the galloons are positioned. In most cases, the product is simply attached to the cap using the same fastenings as the original chinstrap; check your cap for the standard attachment points before fitting.
