Product short description:

Compact metal NBC badge for personnel awarded the brevetto Nucleo Batteriologico Chimico. Suited for uniform wear, display, or collection by military, police, and emergency response personnel involved in difesa CBRN/NBC operations.

- **Material:** Shaped metal shield with blue enamel finish and careful detailing.
- **Design:** Central molecular structure motif surmounted by the inscription "N.B.C.", identifying personnel who earned the brevetto.
- **Size:** 3 cm wide × 3.5 cm high.
- **Attachment:** Secure pin fastening, suitable for uniforms and display.
- **Condition:** Authentic product with attention to detail.

Product description:

Product overview

The Metal NBC Badge is a metal enamel insignia that identifies personnel who have earned the NBC (Nuclear, Bacteriological, Chemical) qualification, now commonly referenced under the

wider CBRN term. It is aimed at service members and security staff, as well as collectors and enthusiasts of military surplus and tactical insignia. Definition: a wearable badge that signals NBC/CBRN training and technical competence in contamination protection.

Visually clear and professionally finished, the badge works both as a duty emblem on uniform and as a collectible display piece. Sold by Tutto Militare, it fits into uniform accessories, police and military surplus collections, and tactical gear assortments.

Main features

Compact, enamel-finished metal badge with a scientific and military design that highlights technical specialization.

- **Shape:** shield-shaped enamel front in blue
- **Central motif:** stylized molecular structure representing scientific competence
- **Inscription:** N.B.C. across the top
- **Material and finish:** metal body with enamel coating
- **Dimensions:** 3 cm width × 3.5 cm height
- **Fastening:** pin (spilla) on the rear for secure attachment
- **Use cases:** suitable for uniform wear and for collectors of military badges

How to use / When it’s useful

Quick answer: wear the badge on stable fabric following your unit’s placement rules; use it as a visible marker of NBC/CBRN qualification or as a display item in a collection. In most cases, the enamel metal version is preferred for formal uniforms and collector displays due to its detail and finish.

For duty use, attach the pin to firm, non-elastic areas of the garment and check the clasp routinely to prevent rotation or loss. For collectors, place the badge in protective mounts or a display case to preserve the enamel and detail.

Care and notes

Basic care preserves the enamel and metal finish and keeps the pin functioning reliably.

- Store in a dry place and avoid prolonged humidity exposure.
- Clean gently with a soft, dry cloth; do not use aggressive solvents on the enamel.
- Protect from sharp impacts and abrasive contact that could scratch the finish.
- Check the pin closure before use to ensure secure attachment to fabric.

FAQ

Q: What does the abbreviation N.B.C. stand for?

A: N.B.C. refers to Nuclear (or radiological), Bacteriological (biological) and Chemical — the traditional areas of training for contamination defence and response.

Q: Is this badge suitable for use on uniform?

A: Yes. The rear pin (spilla) is designed for textile attachment. Always follow your unit’s directives for placement and authorized insignia.

Q: What are the exact dimensions of the badge?

A: The badge measures 3 cm in width and 3.5 cm in height, as specified in the product details.

Q: How is the badge fastened to clothing?

A: It fastens with a pin on the back. The pin provides quick application and reliable hold on stable fabric.

Q: Does the blue enamel have any meaning?

A: Symbolically, blue conveys technical competence, discipline and calm decision-making — qualities associated with NBC/CBRN roles.

Q: Is this item suitable for collectors?

A: Yes. The metal enamel finish and clear graphic detail make it well suited for collectors of specialist badges and military surplus items; proper storage will preserve its appearance.

Tip: Choose the badge variant that matches your uniform rules and collection goals; browse related items such as NBC/CBRN patches, gas mask accessories, and uniform pins to complete your set without haste.
