Product short description:

The Cordura I2 Open Inside Holster is a low-profile IWB holster designed for discreet, comfortable carry. Made for professionals and enthusiasts who need reliable concealment and quick access.

- **Material:** Durable Cordura fabric for long-lasting wear and abrasion resistance.
- **Design:** Open-top, inside-the-waistband construction for fast access and a secure fit against the body.
- **Fit:** Slim, low-profile silhouette that stays concealed under most clothing while offering stable retention.
- **Use:** Suitable for daily carry by professionals and civilian users seeking comfortable, discreet transport.

Product description:

Product overview

The Fondina Interna Aperta in Cordura I2 is an inside-the-waistband, open-top holster designed for shooters and security professionals who need a reliable, easy-access carry solution. It suits users looking for a low-profile tactical or duty-style holster made from durable materials.

Definition: The I2 is an open-top, ambidextrous Cordura inside-the-waistband holster with a polymer clip for secure belt attachment.

Main features

Built for everyday carry and compatible with a range of compact pistols, the I2 balances durability, comfort, and quick access.

- **Durable Cordura fabric:** High-resistance material for long service life with regular use.
- **Ambidextrous design:** Suitable for right- and left-handed carry.
- **Polymer clip:** Secure belt attachment with fast, stable retention.
- **Open-top access:** Faster draw in urgent situations.
- **Wide compatibility:** Fits Automatic, Auto Compact, Small Auto, Baby Auto pistols and Revolver calibers 2, 2 1/2 and 4 inches.

How to use / When it’s useful

Use the Fondina Interna Aperta in Cordura I2 for concealed inside-the-waistband carry when you want a minimal-profile holster that keeps your pistol accessible. Quick answer: it is meant for everyday carry and duty-style use where fast, unobstructed access is important.

In most cases, position the holster inside the waistband with the polymer clip secured to your belt and the open top facing up for a natural draw. This holster is useful for tactical, police, and personal duty carry scenarios where comfort and accessibility matter.

Care and notes

Simple care keeps the holster functional and comfortable for extended use.

- Wipe clean with a damp cloth; avoid harsh chemicals.
- Check the clip and stitching periodically for wear.
- Confirm pistol fit before regular use to ensure safe retention and draw.
- Store dry and avoid prolonged exposure to direct sunlight to preserve materials.

FAQ

Q: Which pistols are compatible with this holster?

A: The holster fits Automatic, Auto Compact, Small Auto, Baby Auto pistols and Revolvers in

calibers 2, 2 1/2 and 4 inches. Always verify fit with your specific model.

Q: Is the holster suitable for left-handed users?

A: Yes. The Fondina Interna Aperta in Cordura I2 is ambidextrous and can be used by both right- and left-handed carriers.

Q: What material is the holster made from?

A: The holster is made from Cordura, a hard-wearing fabric known for resistance and durability in everyday use.

Q: Is the polymer clip reliable?

A: The polymer clip provides a secure attachment to the belt for stable carry and quick access. Inspect it periodically for signs of wear.

Q: Does the open-top design affect weapon retention?

A: The open-top design improves draw speed and access; ensure you confirm fit and practice safe carrying techniques to maintain retention.

Q: Is this holster comfortable for long wear?

A: The I2 has an ergonomic profile designed to reduce discomfort during extended wear, though comfort depends on carry position and personal preference.

Tip: Choose the correct fit for your pistol model and preferred carry position, and browse related tactical, duty, and police carry accessories to complete your setup.
