Product short description:

The Occhialoni di Protezione a Maglia Larga Mod. SAS are wide-mesh protective goggles designed for professionals and hobbyists who need reliable eye protection in dusty or splash-prone environments.

- **Model:** Mod. SAS - wide mesh design for ventilation.
- **Material:** Durable yet lightweight construction for extended use.
- **Ventilation:** Open mesh promotes airflow to help reduce fogging and keep vision clear.
- **Use:** Suitable for dusty work and tasks with splash risk; not a substitute for impact-rated goggles.
- **Fit:** Designed to provide a secure, comfortable fit during varied activities.

Product description:

Product overview

The Wide-Mesh Protective Goggles Mod. SAS are protective eyewear designed for shooters, airsoft players, outdoor hobbyists and professionals needing lightweight eye protection. Definition:

a pair of green metal-mesh goggles that balance visibility and basic impact protection for non-aquatic outdoor activities.

These goggles suit tactical, military surplus and police gear users who want clear sight lines, simple ventilation and a comfortable fit for extended wear.

Main features

Practical, durable construction with comfortable internal padding and an adjustable strap for a secure fit.

- **Wide metal mesh protection**: Green metal mesh provides clear visibility while offering a protective barrier.
- **Shock-absorbing inner foam**: Internal foam cushions the face and improves comfort during prolonged use.
- **Ventilation holes**: Integrated vents reduce fogging and improve airflow.
- **Adjustable elastic strap**: Stretch strap adapts to different head sizes and can be replaced if needed.
- **Ergonomic design**: Easy to put on and remove for quick use in the field or at the range.

How to use / When it’s useful

Quick answer: Use these goggles for shooting practice, airsoft games, range work and general outdoor tasks where mesh protection and visibility are priorities. They are not intended for water activities or underwater use.

In most cases, the goggles fit over standard prescription glasses and can be adjusted for a comfortable, secure fit. They are also suitable for tactical training, military surplus collectors and light-duty police applications that require non-sealed eye protection.

Care and notes

Simple maintenance keeps the goggles functional and comfortable; follow these practical care steps.

- Clean with a soft, dry cloth; avoid aggressive detergents or solvents that can damage the metal mesh.
- Do not use for water sports or in fully submerged conditions—the design is not waterproof.
- Replace the elastic strap if it loses elasticity or becomes damaged to maintain a secure fit.
- Store in a dry place to prevent corrosion of the metal mesh over long periods.

FAQ

Q: Can I wear these goggles over my prescription glasses?

A: Yes, the goggles are designed to fit over most eyeglasses, offering added eye protection without removing your prescription lenses.

Q: Are these goggles suitable for water sports or swimming?

A: No. The goggles are intended for shooting, airsoft and outdoor use only and are not waterproof or designed for aquatic activities.

Q: How should I clean the metal mesh and foam?

A: Wipe the mesh and foam with a soft, dry cloth. Avoid harsh cleaners or solvents that could harm the mesh or padding.

Q: Is the elastic strap replaceable?

A: Yes, the elastic strap is replaceable and adjustable to ensure a proper fit for different head sizes.

Q: Are other colors available besides green?

A: Currently the goggles are offered in the green metal-mesh version Mod. SAS. Additional colors may be introduced in the future.

Q: How durable are these goggles for regular outdoor use?

A: The goggles feature a robust metal mesh and quality foam for durable, everyday use; proper care and storage will extend their lifespan.

Tip: Choose the correct fit and consider replacing the strap if needed; browse related tactical and military surplus eye protection to compare styles and find the best option for your activities.
