**Product short description:**

2-Liter Hydration Bladder designed for outdoor use. Ideal for hikers, cyclists and runners who need reliable, hands-free hydration on the move.

- **Capacity:** 2 liters - enough water for day trips and training.
- **Material:** Durable, food-safe construction for long-lasting use.
- **Tube & Valve:** Flexible drinking tube with bite valve for quick access.
- **Design:** Lightweight, compact profile fits most backpacks.
- **Use:** Suited to hiking, cycling, running and other outdoor activities.

**Product description:**

### Product overview

This 2-liter hydration bladder is designed for outdoor enthusiasts, tactical users and duty professionals who need hands-free access to water during long activities. Definition: a flexible hydration reservoir that fits most hydration-ready backpacks for hiking, cycling, patrol or training.

Lightweight and compact, the olive-green bladder offers easy filling, drinking and cleaning while keeping your pack balanced and your hands free.

**Main features**

Built for practical use in outdoor, tactical and police/duty settings, the bladder combines simple operation with durable construction.

- **Capacity:** 2 liters (maximum).
- **Flexible removable tube:** 100 cm tube for convenient reach and easy cleaning.
- **Wide opening with thick seal:** Large refill/cleaning opening with a secure gasket for simpler maintenance.
- **Universal compatibility:** Fits most backpacks with a hydration sleeve or compartment.
- **Compact and lightweight:** 42 cm length (empty), 17 cm width (empty), weight 190 g.
- **Olive green color:** Low-visibility finish suitable for outdoor and tactical gear.

**How to use / When it’s useful**

Use the bladder inside a hydration-capable backpack or sleeve. Fill through the wide opening, close the cap securely and route the 100 cm tube to your shoulder for on-the-move drinking.

Quick answer: it is ideal for hiking, cycling, long walks, tactical training and duty shifts where hands-free hydration is needed. In most cases, pairing it with a hydration-compatible pack or tactical vest gives the best comfort and stability.

**Care and notes**

Simple care extends the bladder’s life and helps prevent odors or buildup.

- Rinse and dry thoroughly after each use to avoid mold or taste transfer.
- Ensure the cap and tube connection are closed properly to prevent leaks.
- Store empty and dry in a cool place away from sharp objects.

## FAQ

**Q:** What is the bladder capacity?

**A:** The bladder holds 2 liters of liquid. This is the maximum recommended capacity for normal use.

**Q:** How long is the drinking tube?

**A:** The flexible tube is 100 cm long, giving easy access when routed to the shoulder strap of a pack.

**Q:** Will it fit my backpack?

**A:** Yes. It is designed to be compatible with most backpacks that have a hydration sleeve or pocket.

**Q:** What are the bladder dimensions and weight?

**A:** Empty length is 42 cm, width is 17 cm, and the bladder weighs approximately 190 grams.

**Q:** Does the bladder leak?

**A:** The cap includes an open/close mechanism and a thick sealing gasket to minimize leaks when properly closed. Always check the seal before use.

**Q:** What color is the bladder?

**A:** The bladder is olive green, a low-visibility color suited to outdoor, tactical and military surplus gear.

**Tip:** Choose the right capacity for your activity and consider pairing this 2-liter bladder with hydration-compatible backpacks, tactical vests or duty gear. Browse related tactical, military surplus and outdoor hydration accessories to complete your setup.
