- **Colors:** Available in several attractive color options; model shown is white/black.
- **Design:** Practical, lightweight and easy to carry on every adventure.

Product description:

Product overview

The Braccialetto Paracord 550 mod. Paralix Bianco Nero is a tactical-style paracord bracelet made for outdoor enthusiasts, campers, and anyone who values practical, durable gear. It combines a modern black-and-white weave with functional parachute-grade nylon construction.

Definition: a paracord bracelet is a wearable length of parachute nylon cord that can be unraveled to provide utility cord in emergency or outdoor situations.

Main features

Built from parachute-grade nylon, this Paralix model offers a clean black-and-white paracord braid with five inner high-strength nylon strands for versatility and reliability.

- **Parachute nylon construction:** durable and water-resistant material.
- **Five internal strands:** five white high-strength nylon inner cords inside the sheath.
- **Black & white paracord braid:** modern, tactical appearance suitable for camping, nautical use, hunting, hiking, and military-surplus style.
- **Emergency use:** can be unraveled to provide several meters of useful cord in urgent situations.
- **Customizable length:** provide your wrist measurement in centimeters and we will size the bracelet to fit.

How to use / When it’s useful

Use this bracelet as a convenient carry option for cord on camping trips, boating, hunting, or everyday wear. In an emergency you can quickly unwind the braid to access cord for temporary repairs, shelters, or gear fixes.

Quick answer: it is a wearable supply of paracord for outdoor and tactical tasks. In most cases, it serves as a practical accessory for hikers, campers, tactical enthusiasts, and military surplus collectors who need on-demand cordage.

Care and notes

Simple care keeps the paracord functional: rinse off dirt, let it air dry, and avoid prolonged exposure to abrasive surfaces. Provide wrist size in centimeters when ordering for a proper fit.

- Rinse with fresh water after salt exposure and air dry.
- Store away from sharp edges to prevent fraying.
- Provide wrist measurement in cm (measured with a tape) for custom sizing.
- Can be unraveled for emergency cord; the cord should be recovered from parachute material if applicable.

FAQ

Q: Is the bracelet water-resistant?

A: Yes. The bracelet is made from parachute-grade nylon, which is water-resistant and suitable for outdoor use. Rinse and dry it after heavy exposure to water to prolong life.

Q: How do I customize the bracelet length?

A: Tell us your wrist measurement in centimeters (use a tape measure). We will cut and assemble the bracelet to your specified length before shipping.

Q: How much cord do I get if I unravel it?

A: You can obtain several meters of cord when the bracelet is fully unraveled. Exact length varies with the final bracelet size and braid style.

Q: Is it suitable for daily wear?

A: Yes. The design and materials make it durable enough for everyday use while maintaining a tactical, military-surplus look appropriate for casual or outdoor wear.

Q: Are other colors available?

A: The Paralix model is currently offered in the white-and-black combination shown. Check product listings for any future color options.

Q: Is this bracelet certified for professional duty or life-support use?

A: No. It is intended as a practical accessory and emergency cord source for outdoor and tactical-style use, not as certified equipment for professional life-support or load-bearing applications.

Tip: Provide your exact wrist measurement in centimeters when ordering to ensure the best fit, and browse related tactical and military-surplus accessories to assemble a complete outdoor kit.
