- **Use:** Suitable for camping, hunting, survival and tactical applications where a dependable blade is needed.
- **Care:** Clean and dry after use and store safely to maintain finish and functionality.

Product description:

Product overview

The MTech 303B Lama Fissa Camo is a fixed-blade tactical knife designed for outdoor

enthusiasts, hunters, collectors and anyone needing a sturdy utility knife. It combines a satin 440 stainless blade with a camo finish and a one-piece handle for reliable field use.

Definition: a fixed-blade knife built for general tactical, camping and hunting tasks. The knife pairs corrosion-resistant 440 stainless steel with a cord-wrapped handle and a nylon sheath for belt carry.

Main features

Built for durability and practical carrying, with features useful for tactical, military surplus style, duty and police-style uses.

- **Blade:** Satin 440 stainless steel, blade length 145 mm, blade thickness 5 mm.
- **Camo finish:** Camouflage blade color for low-visibility outdoor use and a tactical look.
- **One-piece handle:** Single-piece construction with green non-slip cord wrap; handle length 142 mm for secure grip.
- **Integrated guard:** Stainless steel guard built with two 7 mm holes for added safety and customization options.
- **Sheath included:** Black nylon sheath with belt loop and snap closure; belt loop height on the sheath 95 mm for comfortable carry.
- **Overall length:** Total length listed as 290 mm.
- **Note on dimensions:** The original listing shows a blade width of 250 mm, which appears inconsistent with the blade length and may be a typographical error.

How to use / When it’s useful

Quick answer: use this knife for cutting, fieldcraft, camp chores and general outdoor tasks where a fixed, sturdy blade is needed. The fixed blade design and full handle length give good control for chopping, slicing and light batoning.

In most cases, the nylon sheath makes belt carry and quick access straightforward for hiking, hunting or tactical kit. For collectors, the camo finish adds a military surplus style aesthetic while remaining functional.

Care and notes

Simple maintenance keeps the blade performing and protects the finish.

- Clean and dry after use to reduce moisture exposure despite the 440 stainless blade.
- Apply light protective oil occasionally to the blade to reduce surface corrosion over time.
- Store and transport in the supplied nylon sheath; keep out of reach of children and handle with care—blade is sharp.
- Observe local laws and regulations regarding carry and use of fixed-blade knives in your area.

FAQ

Q: What is the total length of the knife?

A: The total length is listed as 290 mm.

Q: Is this knife suitable for camping?

A: Yes. The robust design, fixed blade and included sheath make it suitable for common camping tasks like preparing kindling, food prep and general cutting.

Q: Does the knife come with a sheath?

A: Yes. It includes a black nylon sheath with a belt loop and a snap-button closure for secure carry.

Q: Is the blade corrosion-resistant?

A: The blade is made of 440 stainless steel, which offers good corrosion resistance; routine cleaning and light oiling will help maintain it.

Q: What is the blade width?

A: The source lists a blade width of 250 mm, but this appears inconsistent with the blade length and may be a listing error. Confirm other listed dimensions: blade length 145 mm and thickness 5 mm.

Q: Will the handle provide a secure grip?

A: Yes. The one-piece handle is wrapped with green non-slip cord to improve grip in wet or cold conditions.

Tip: Choose the right variant or size for your needs and browse related tactical knives and military surplus-style gear to complete your kit. Consider sheath carry options and local carry rules before purchase.
