How to use / When it’s useful

Quick answer: carry the holster on your belt, right side, for easy access to your Guardian Angel II pepper spray pistol. In most cases, the elastic fit allows use with other small pistols, but always check fit before everyday carry.

The holster is useful for daily carry, plainclothes duty, or when you need a compact, discreet self-defence option. Attach the rear belt loop to a stable belt, set the retention strap height with the snaps and Velcro, and confirm the draw is smooth and secure.

Care and notes

Basic care keeps the leather functional and looking good while maintaining safe use.

- Keep dry and avoid prolonged exposure to water; wipe with a soft cloth if wet.
- Use a mild leather cleaner or conditioner occasionally to prevent drying or cracking.
- Check the fit and retention before carrying; adjust the strap as needed for a secure hold.
- Designed for right-handed use only—do not expect proper fit for left-handed carry.
