How to use / When it’s useful

Quick answer: Use the Velcro backing to attach the patch to any compatible loop surface — uniforms, tactical vests, duty bags, or collector boards. The patch is also suitable for civilian clothing where Velcro panels exist.

In most cases, collectors display the patch on a board or inside a case, while users in tactical, military surplus or police contexts attach it to gear for identification or historical interest. Limited stock means it is useful to decide quickly if you want multiple copies for display and field use.

Care and notes

Simple care keeps the patch looking its best and preserves the embroidery and Velcro attachment.

- Remove the patch from garments before washing to protect embroidery and Velcro.
- Store flat or on a soft surface to avoid deforming the shape.
- Keep away from sharp objects that could catch the stitching.
- Availability is limited; consider ordering promptly if you need more than one piece.
