Product short description:

The Nastrino EUTM-Somalia is a service ribbon that recognizes personnel who took part in EU training missions in Somalia. Ideal for veterans, active service members and collectors seeking a respectful emblem of their participation.

- **Material:** Made from high-quality materials for a durable, neat appearance.
- **Use:** Suitable for wear on uniforms or for display in personal collections.
- **Design:** Elegant, distinctive ribbon style that complements formal dress.
- **Recognition:** A tangible symbol to honor service and professional commitment.

Product description:

Product overview

The Nastrino EUTM-Somalia is a service ribbon for military personnel and collectors related to the European Union Training Mission Somalia (EUTM-Somalia). It suits service uniforms, display bars, and military surplus collections.

Definition: The EUTM-Somalia ribbon is a service ribbon that represents recognition for personnel who served with the European Union Training Mission Somalia starting in April 2010. Keywords: tactical, military surplus, duty.

Main features

Clear, durable construction with selectable formats and attachment options to match uniform or display needs.

- **Distinctive design:** Blue base crossed by a central 10 mm vertical yellow stripe.
- **Metal name plate:** Central antiqued silver plate engraved with "EUTM-SOMALIA".
- **High-quality materials:** Built for durability and a professional appearance.
- **Available sizes:** Standard 37 mm and compact 20 mm formats.
- **Model options:** Flat (regulation) or slightly domed "Elite" variant for a modern look.
- **Rear attachments:** Choose rear clips for easy fitting or screws for a firmer, longer-lasting mount.
- **Mounting service:** Can be supplied mounted on multi-ribbon bars on request.

How to use / When it’s useful

The ribbon is intended for placement on uniform ribbon bars, display racks, or in military surplus and memorabilia collections. Select the correct width and attachment type to match your uniform regulations or display preference.

Quick answer: Use clips for removable fitting and screws for a more permanent, secure attachment. In most cases, choose 37 mm for full-size uniforms and 20 mm for compact or multi-ribbon setups.

Care and notes

Basic care keeps the ribbon looking its best and preserves attachment integrity.

- Wipe with a soft, dry cloth; avoid abrasive cleaners or chemicals.
- Check clips or screws periodically to ensure secure fitting.
- The slightly domed "Elite" model is a non-regulation variant; use accordingly if you must follow uniform rules.
- Limited availability: stock can be restricted due to demand—order the required size and attachment promptly.

FAQ

Q: What sizes are available for the Nastrino EUTM-Somalia?

A: The ribbon is offered in two standard sizes: 37 mm (full-size) and 20 mm (compact). Choose the size that fits your uniform or display bar.

Q: What rear attachment options can I choose?

A: You can select rear clips for easy removal or screws for a more secure, lasting mount. Choose based on how often you plan to remove the ribbon.

Q: Can the ribbon be mounted on a multi-ribbon bar?

A: Yes. We offer a service to mount the ribbon on a multi-ribbon metal bar for orderly display of multiple ribbons.

Q: What does the ribbon design represent?

A: The blue background with a central 10 mm yellow vertical stripe symbolizes the mission’s identity and central role; the metal plate reads "EUTM-SOMALIA" to clearly identify the mission.

Q: Is the domed "Elite" version regulation compliant?

A: The flat model follows standard regulation appearance. The slightly domed "Elite" version is an out-of-regulation style for personal or display use.

Q: How do I order the correct variant for duty use?

A: Select the 37 mm flat model with the preferred attachment for official duty. If you are unsure, choose clips for flexibility or screws for a fixed fit, and verify any unit regulations first.

Tip: Choose the correct size and rear attachment for your uniform or display—37 mm is standard for full uniforms, 20 mm suits compact bars. Browse related ribbons and mounting bars in our catalog to build a complete, regulation-friendly ribbon set.
