- **Design:** Distinctive braided Millepiedi pattern offering both style and resilience.
- **Ideal for:** Hiking, camping or everyday carry for those who value preparedness.

**Product description:**

### Product overview

**Braccialetto Paracord Millepiedi** is a paracord bracelet for outdoor enthusiasts, tactical users, and anyone who wants a practical everyday accessory. It suits hikers, campers, military surplus and police-style gear fans, and young fashion-minded customers.

Definition: the Braccialetto Paracord Millepiedi is a wearable paracord bracelet made from three parachute nylon cords (gray, white, red) with five high-strength white nylon inner strands. It provides compact cordage for basic emergency and everyday uses.

**Main features**

Durable materials and a compact design make this bracelet useful for outdoor, tactical and casual wear.

- **Parachute nylon construction:** three outer cords in gray, white and red.
- **Internal strands:** five white high-strength nylon inner cords inside the sheath.
- **Custom length:** length adjusted to your wrist measurement in centimeters.
- **Compact size:** 2 cm width for comfortable daily wear.
- **Water and weather resistance:** nylon construction resists moisture and common outdoor conditions.
- **Style and utility:** blends practical cordage with a modern, tactical look.

**How to use / When it’s useful**

The bracelet can be worn daily as a low-profile accessory and carried as a ready source of cord for camping, minor repairs, securing gear or improvised uses. It appeals to survival, tactical and military surplus shoppers who value compact solutions.

Quick answer: untie the bracelet to access the inner cords when you need cordage; re-tie or replace as needed. In most cases, the available cord is intended for temporary fixes and utility use rather than certified load-bearing or life-safety applications.

**Care and notes**

Simple care extends the life of the paracord and keeps it ready for use.

- Hand wash with mild soap and cold water; rinse and air dry away from direct heat.
- Store dry and avoid prolonged sun exposure to reduce material aging.
- Not designed or certified for climbing, rescue, or other load-bearing safety uses.

## FAQ

**Q:** How do I request a custom length?

**A:** Send your wrist measurement in centimeters measured with a tape measure. We will adjust the bracelet length to fit that measurement.

**Q:** Is the bracelet water-resistant?

**A:** Yes. The parachute nylon resists water and typical weather exposure. Allow the bracelet to air dry after heavy wetting.

**Q:** Can I use the cord in emergency situations?

**A:** Yes. The bracelet can be untied to provide meters of cord useful for temporary repairs, shelter, or gear fastening. It is not certified for life-saving or load-bearing tasks.

**Q:** What are the bracelet dimensions?

**A:** The bracelet width is 2 cm. Length is customized based on your wrist measurement in centimeters.

**Q:** Is this bracelet suitable for everyday wear?

**A:** Yes. Its compact profile and durable material make it comfortable for daily use and outdoor activities.

**Q:** What materials and colors are used?

**A:** Three outer parachute nylon cords in gray, white and red, with five internal high-strength white nylon strands for cordage when needed.

**Tip:** Provide your wrist measurement in centimeters when ordering to ensure the best fit, and browse related tactical and outdoor accessories to build a practical kit without overspending.
