How to use / When it’s useful

Quick answer: apply these metal rank insignia to the rigid shoulder boards of the ordinary uniform to show General rank clearly during duty or official events. They are useful for officers on active service, ceremonial duty, or for verified collectors displaying authentic items.

In most cases, the badges are fitted directly to the contre-spalline (rigid shoulder boards) of the giubba; combine the greca with the correct number of stars to represent the exact General grade. They are also suitable for military surplus displays and authorized police or duty uniform restoration when legally permitted.
