How to use / When it’s useful

Quick answer: Wear the large format on everyday uniform displays and the 20 mm gala format on dress or ceremony uniforms; both are suitable for collectors and display cases. In most cases, choose the size that matches your uniform regulations or your intended use (wear vs. display).

The medal works well for formal military duty, commemorative display, historical collections, and military surplus retail. For unit or personal presentation, select the format that fits the required mounting method and uniform guidelines.
