- **Use:** Ideal for hiking, outdoor activities or casual?chic city wear.
- **Fit:** Comfortable, versatile accessory to wear daily.

Product description:

Product overview

The Braccialetto Paracord 550 Green Red Turtle is a wearable survival bracelet made from 550 parachute-grade nylon cord, designed for outdoor users such as campers, hikers, boaters, tactical and police personnel, and military surplus enthusiasts. Definition: a paracord bracelet is a compact, wearable length of 550 nylon cord that can be unraveled for practical use in the field.

This Green Red Turtle model combines a functional braided design with durable materials, offering a low-profile accessory for everyday wear and emergency situations.

Main features

Built from genuine parachute nylon cord with a five-strand core, this bracelet balances durability, comfort, and versatility for outdoor and duty use.

- **Material:** 550 parachute nylon cord with 5 high-strength inner white strands.
- **Design:** Alternating green and red paracord braid with turtle-style pattern to the closure.
- **Convertible:** Can be unraveled to provide meters of useful cord in emergencies.
- **Uses:** Suitable for camping, boating, hunting, hiking, tactical, duty, and other outdoor activities.
- **Custom fit:** Provide your wrist measurement in cm and we will adjust the bracelet length for a precise fit.
- **Dimensions:** Width 2.5 cm; thickness 1 cm.

How to use / When it’s useful

Quick answer: wear it as an everyday accessory and unwind the cord when you need secure cordage for tasks like tying, repairs, or makeshift shelters. Ideal for outdoor trips, field duty, and emergency kits.

In most cases, you can fasten the bracelet for daily use and only unravel it when required; the paracord type matches the general cord used in parachute applications and provides reliable utility cord for light to medium tasks.

Care and notes

Simple care keeps the bracelet functional and comfortable for long-term use.

- Hand wash with mild soap and water; air dry.
- Keep away from open flame and high heat—nylon can deform or melt.
- Not certified for climbing, human suspension, or rescue; use only as general-purpose cordage.
- Provide wrist measurement in centimeters for a custom fit; measure with a tape snug around the wrist.

FAQ

Q: Is the bracelet water-resistant?

A: Yes. The bracelet is made from parachute-grade nylon, which resists water and dries quickly, making it suitable for boating and wet conditions.

Q: How do I customize the length?

A: Send your wrist measurement in centimeters (use a tape measure wrapped snugly around your wrist) and we will make the bracelet to that length for a comfortable fit.

Q: Can I wear this bracelet every day?

A: Absolutely. The braid is low-profile and built for daily wear while remaining functional for outdoor and tactical use.

Q: Can the cord be used in an emergency?

A: Yes. The bracelet can be unraveled to provide several meters of paracord useful for repairs, securing gear, or making temporary shelters.

Q: What are the bracelet dimensions?

A: The bracelet is 2.5 cm wide and 1 cm thick. Length is customized to your wrist measurement in cm.

Q: What is paracord 550 and how many inner strands does it have?

A: Paracord 550 is a common type of parachute cord with a rated breaking strength around 550 lbs; this bracelet contains the typical 5 inner nylon strands used for utility purposes.

Tip: Choose the correct wrist size when ordering to ensure a snug fit; consider browsing similar paracord and tactical accessories to complete your outdoor or duty kit.
